THE JOURNAL OF PEDIATRICS

Editor
WALDO E. NELSON
Philadelphia

Assistant editors
JOSEPH M. GARFUNKEL, Harrisburg, Pa.
ARTHUR E. MC ELFRESH, St. Louis

Editorial board
RUSSELL J. BLATTNER, Houston
CHARLES D. COOK, New Haven
ROBERT E. COOKE, Baltimore
FLOYD W. DENNY, JR., Chapel Hill
JAMES N. ETTELDORF, Memphis
LEE FORREST HILL, Des Moines
M. EUGENE LAHEY, Salt Lake City
WALLACE W. MC CRORY, New York City
HARRY MEDOVY, Winnipeg
WILLIAM L. NYHAN, Miami
CARL H. SMITH, New York
WILLIAM B. WEIL, JR., Lansing
CLARK D. WEST, Cincinnati
STANLEY W. WRIGHT, Los Angeles

Contributing editors
Book reviews: L. EMMETT HOLT, JR., New York
Cardiology: EDWARD LAMBERT, Buffalo
Dysmorphology (Teratology): DAVID SMITH, Seattle
Endocrinology and metabolism: MELVIN GRUMBACH, San Francisco
Fetal and neonatal medicine: RICHARD E. BEHRMAN, Chicago; FREDERICK BATTAGLIA, Denver
Genetics: WILLIAM J. MELLMAN, Philadelphia
Hematology: HOWARD A. PEARSON, New Haven
Immunology: CHARLES A. JANEWAY, Boston
Infectious diseases: SAUL KRUGMAN, New York
Neurology: PATRICK BRAY, Salt Lake City
Pathology: JAY BERNSTEIN, Royal Oak, Michigan
Pharmacology and therapeutics: WILLIAM L. NYHAN, Miami; HARRY C. SHIRKEY, Honolulu
Psychiatry: LEON EISENBERG, Baltimore
Tropical pediatrics: D. B. JELLIFFE, Jamaica

Editor emeritus
BORDEN S. VEEDER, St. Louis

*Subject index**

A

Abdominal angina in child (Buker, Graham, and Efthimiadis) (BCLO), 295

roentgenogram, bismuth ingestion simulating acute plumbism on (Heller and Waitsman) (Letter), 637

Abnormalities of palms and ears and facial asymmetry: dominantly inherited developmental syndrome (Aase and Smith), 928

Absorption, gastrointestinal, of kerosene, role in producing pneumonitis in dogs (Wolfe, Brodeur, and Shields), 867

Abstracts, Annual Meeting—1969. Midwest Society for Pediatric Research, 954

Achilles reflex time in thyroid disorders (Costin, Kaplan, and Ling), 277

Acid, E600-resistant, esterase activity with storage of lipids in lysosomes, deficiency of: Wolman's disease (Lake and Patrick), 262

homogentisic, in urine, rapid semiquantitative determination of: alcaptonuria (Kang and Gerald) (BCLO), 939

Acidosis, lactic, chronic, of infancy (Greene, Schubert, and Hug), 853

Acrodynia, follow-up examination of 6 children after (Barbacki) (Letter), 981

Adrenal cyst, in situ neuroblastoma associated with (Tubergen and Heyn) (BCLO), 451

hyperplasia, congenital, salt-losing, in Alaskan Eskimo (Rosenbloom) (Letter), 326; (Hirshfeld) (Reply), 327

Adrenergic blockade therapy, beta, in juvenile diabetes (Schultz) (Letter), 640; (Baker) (Reply), 640

Advertised treatment of hyperbilirubinemia (Wilson) (Letter), 485

African, North, Jewish family, clinical entity simulating familial dysautonomia in (Schmidt et al.), 283

Alcaptonuria: rapid semiquantitative determination of homogentisic acid in urine (Kang and Gerald) (BCLO), 939

Allergic bronchopulmonary aspergillosis in a child (Slavin, Laird, and Cherry), 416

Alymphoplasia, thymic, previously reported as dysgammaglobulinemia type I (Cashman, Navin, and Chandor), 722

Amino acids, concentrations of, in plasma and muscle: cerebral gigantism (Bejar et al.), 105

Aminophylline, intravenously administered, in asthmatic children, pharmacologic effects of (Maselli, Casal, and Ellis), 777

Anal atresia, eye anomalies, and additional small abnormal acrocentric chromosome (47,XX,mar+): report of case (Weber, Dooley, and Sparkes), 594

Anasarca, hypoproteinemia, and chronic blood loss in infant, diffuse gastrointestinal polyposis associated with (Arbeter, Courtney, and Gaynor) (BCLO), 609

Androstenedione, testosterone, and dehydroisoandrosterone, percentage bound to plasma protein in preadolescent children (Forest and Migeon), 732

Anemia, iron deficiency, red cell metabolism in: relationship between red cell survival and alterations in red cell metabolism (Macdougall, Judisch, and Mistry), 660

Anesthesia, halothane, acute diphenylhydantoin intoxication following (Karlin and Kutt), 941

Aneurysm, dissecting, in childhood (Strauss and McAdams), 578

Angina, abdominal, in child (Buker, Graham, and Efthimiadis) (BCLO), 295

Angiography, effects of, on renal function and histology in infants and piglets (Gruskin et al.), 41

Anomalies, ear, middle, renal, and vaginal, a second family with (Turner) (Letter), 641

*January, pp. 1-168; February, pp. 169-338; March, pp. 339-498; April, pp. 499-652; May, pp. 653-814; June, pp. 815-1016.

Anomalies—Cont'd
eye, anal atresia, and additional small abnormal acrocentric chromosome (47,XX,-mar+): report of case (Weber, Dooley, and Sparkes), 594
Antibiotics, resistance of Mycoplasma pneumoniae to erythromycin and other (Niitu et al.), 438
Antimicrobial therapy in theory and practice (Strauss) (Letter), 805; (McCracken, Eichenwald, and Nelson) (Reply), 805
Arthrogryposis multiplex congenita: clinical investigation (Fisher et al.), 255
Aspergillosis, allergic bronchopulmonary, in a child (Slavin, Laird, and Cherry), 416
Asthmatic children, pharmacologic effects of intravenously administered aminophylline in (Maselli, Casal, and Ellis), 777
Asymmetry, facial, and abnormalities of palms and ears: dominantly inherited developmental syndrome (Aase and Smith) (BCLO), 928
Atresia, anal, eye anomalies, and additional small abnormal acrocentric chromosome (47,XX,mar+): report of case (Weber, Dooley, and Sparkes), 594
Atrial septostomy, balloon, complication of: inability to deflate catheter balloon (Ellison et al.) (BCLO), 604
balloon, complications of (Rashkind) (Editor's column), 649
wall, right, perforation by polyethylene tubing: report of two unusual cases (Friedman and Schieken) (BCLO), 923

B

Bacteria, hospital, bacterial colonization of newborn infants and subsequent acquisition (Ehrenkranz), 839
Bacterial infections in newborn infant (Fulginiti) (Editor's column), 646
meningitis, neonatal (Overall), 499
Bacteriuria in early infancy, office screening for: collection of suitable urine specimen (Randolph and Majors) (BCLO), 934
Balloon atrial septostomy, complication of: inability to deflate catheter balloon (Ellison et al.) (BCLO), 604
(Rashkind) (Editor's column), 649
Beta adrenergic blockade therapy in juvenile diabetes (Schultz) (Letter), 640; (Baker) (Reply), 640
Bilderback, Dr.—"Dr. Bil," tribute to (Hecht) (Letter), 637
Birth weight and gestational age (Battaglia) (Editor's column), 812
Birth weight—Cont'd
and length of gestation, relationship to intellectual development at ages 8 to 10 years (Wiener), 694
low-, full-term, mentally retarded patients, chromosome studies in (Chen et al.), 393
related to toxicity (Nachman) (Letter), 327
motor behavior of small for gestational age newborn infants (Michaelis, Schulte, and Nolte), 208
Bismuth ingestion simulating acute plumbism on abdominal roentgenogram (Heller and Waitsman) (Letter), 637
Bite of venomous snake on children and adults, observations on effects (Sadan and Soroker), 711
Bleeding and clotting in cyanotic congenital heart disease (Naiman) (Editor's column), 333
Blockade therapy, beta adrenergic, in juvenile diabetes (Schultz) (Letter), 640; (Baker) (Reply), 640
Blood cell, red, glutathione peroxidase, relation to neonatal jaundice (Whaun and Oski), 555
metabolism in iron deficiency anemia: relationship between red cell survival and alterations in red cell metabolism (Macdougall, Judisch, and Mistry), 660
gas tensions in newborn infants, effect of cooling on (Stephenson, Du, and Oliver), 848
loss, chronic, hypoproteinemia, and anasarca in infant, diffuse gastrointestinal polyposis associated with (Arbeter, Courtney, and Gaynor) (BCLO), 609
sugar, insulin, and growth hormone levels in an anencephalic infant before and after intravenous administration of glucose (Grunt and Reynolds), 112
Book reviews
Abridged Index Medicus, 480
Adolescent nutrition and growth (Snyderman), 634
Brain-injured children. With special reference to Doman-Delacato methods of treatment (Kennedy), 798
Currents in American medicine—a developmental view of medical care and education (Gordon), 633
Cytogenetics (Wright), 800
Genetics and counseling in medical practice (Wright), 635
Handbook of pediatric cardiology (Goldring), 481
Immunoglobulinopathies. Immunoglobulins, immune deficiency sydromes, multiple myeloma, and related disorders (Brunell), 977

XUM

Book reviews—Cont'd
The infant cry (Karelitz and Fisichelli), 636
Intestinal absorption and malabsorption (Sunshine), 799
The know-how of infant feeding (Snyderman), 800
Progress in pediatric radiology: gastrointestinal tract. vol. 2 (Becker), 977
Recent advances in pediatric clinical pathology (Etteldorf, Ragland and Trouy), 481
Self and not-self (Cellular immunology) Book I (Halac), 324
Understanding dentistry (Parkins), 800
Brain damage at five years, saturation of serum proteins with bilirubin during neonatal life and its relationship to: studies in kernicterus (Odell, Storey, and Rosenberg), 12
growth, rapid, upon restoration of adequate nutrition causing false radiologic evidence of increased intracranial pressure (De Levie and Nogrady), 523
tissue, pharyngeal, heterotopic: an unusual cause of neonatal respiratory obstruction (Cohen and Abt) (BCLO), 119
Bronchopulmonary aspergillosis, allergic, in a child (Slavin, Laird, and Cherry), 416
Burr cells: classification and effect of splenectomy (Smith and Khakoo), 99

C

Capillary sampling, arterialized, using histamine iontophoresis (Winquist and Stamm) (BCLO), 455
Carcinoma, renal cell, in children: clinicopathologic study of 15 cases and review of the literature (Dehner, Leestma, and Price), 358
Cardiac malformations, congenital, and dextroamphetamine (Gilbert and Khoury) (Letter), 638
Catheter balloon, inability to deflate: complication of balloon atrial septostomy (Ellison et al.) (BCLO), 604
Catheterization in infants and children, thromboses due to (Wigger, Bransilver, and Blanc), 1
Cell(s), blood, red, glutathione peroxidase, relation to neonatal jaundice (Whaun and Oski), 555
burr: classification and effect of splenectomy (Smith and Khakoo), 99
carcinoma, renal, in children: clinicopathologic study of 15 cases and review of the literature (Dehner, Leestma, and Price), 358
Gaucher's, in acute leukemia of childhood (Witzleben et al.) (BCLO), 129
Cell—Cont'd
red, metabolism in iron deficiency anemia: relationship between red cell survival and alterations in red cell metabolism (Macdougall, Judisch, and Mistry), 660
Central nervous system malformation and herpesvirus infection (Gooding) (Letter), 980; (South) (Reply), 981
Cerebral gigantism: concentrations of amino acids in plasma and muscle (Bejar et al.), 105
Cerebri, pseudotumor, in galactosemia (Huttenlocher, Hillman, and Hsia), 902
Cerebrospinal fluid sugar determinations (Rosenfeld) (Letter), 328; (Feinbloom and Alpert) (Reply), 328
Cervical hernia of lung (Jones) (BCLO), 122
Chromatin, X, determination, use of hair root sheath for (Katz and Wright) (BCLO), 292
Chromosome, additional small abnormal acrocentric (47,XX,mar+), anal atresia, and eye anomalies: report of case (Weber, Dooley, and Sparkes), 594
deletion, human: two patients with the 4p- syndrome (Arias et al.), 82
mosaicism, sex, in disorders of sexual differentiation: incidence in various tissues (Ferrier, Ferrier, and Kelley), 739
No. 16, ring, in infant with primary hypoparathyroidism (Pergament et al.), 745
nomenclature (Summitt), 314
studies in full-term, low-birth-weight, mentally retarded patients (Chen et al.), 393
translocation or isochromosome, meiotic evidence in Down's syndrome for 21/21 (Hecht et al.) (BCLO), 298
Chylothorax and pneumothorax in neonatal period (Chernick and Reed), 624
Cirrhosis, serum magnesium in children with (Cohen, McNamara, and Finberg) (BCLO), 453
Clotting and bleeding in cyanotic congenital heart disease (Naiman) (Editor's column), 333
Coagulation, altered, study of—polycythemia in cyanotic heart disease (Komp and Sparrow), 231
studies in hemolytic-uremic syndrome (Sanchez Avalos et al.), 538
Collagen-like disease and thyrotoxicosis in three sisters of American Indian extraction (Librik et al.), 64
Congenital adrenal hyperplasia, salt-losing, in Alaskan Eskimo (Rosenbloom) (Letter), 326; (Hirshfeld) (Reply), 327
cardiac malformations and dextroamphetamine (Gilbert and Khoury) (Letter), 638
heart disease, cyanotic, clotting and bleeding in (Naiman) (Editor's column), 333
hemostasis in (Ekert et al.), 221
hyperviscosity in (Kontras et al.), 214

Congenital—Cont'd
hypogammaglobulinemia preceding Hodgkin's disease: a case report and review of the literature (Gellman and Vietti) (BCLO), 131
rubella in twins (Montgomery and Stockdell) (BCLO), 772
Convulsion scoring in treatment of neonatal tetanus (Rhea et al.), 949
Cooling on blood gas tensions, effect in newborn infants (Stephenson, Du, and Oliver), 848
Cultures, throat, processed in physicians' offices, accuracy of (Rosenstein, Markowitz, and Gordis) (BCLO), 606
Cyanotic congenital heart disease, clotting and bleeding in (Naiman) (Editor's column), 333
hemostasis in (Ekert et al.), 221
heart disease, polycythemia in—study of altered coagulation (Komp and Sparrow), 231
Cyst, adrenal, in situ neuroblastoma associated with (Tubergen and Heyn) (BCLO), 451
Cystathioninemia: benign genetic condition (Scott et al.), 571
Cystic fibrosis, massive hemoptysis in (Holsclaw, Grand, and Shwachman), 829
of the pancreas, ultrastructure of cultivated fibroblasts in (Bartman, Wiesmann, and Blanc), 430
parotid gland sialograms in (Leake, Khaw, and Shwachman) (BCLO), 301
sodium concentration in unstimulated parotid saliva and on oral mucosa in normal subjects and in patients with (Wiesmann, Boat, and di Sant' Agnese) (BCLO), 444
Cystinosis, simple technique for biochemical diagnosis of (Schulman et al.) (BCLO), 289

D

Death and pediatric house officer (Schowalter), 706
Dehydroisoandrosterone, androstenedione, and testosterone, percentage bound to plasma protein in preadolescent children (Forest and Migeon), 732
Deoxyuridine, 5-iodo-2'-, in neonatal herpesvirus hominis encephalitis (Charnock and Cramblett), 459
Dextroamphetamine and congenital cardiac malformations (Gilbert and Khoury) (Letter), 638
Diabetes, juvenile, beta adrenergic blockade therapy in (Schultz) (Letter), 640; (Baker) (Reply), 640
Diabetic mother, outlook for the infant of (Medovy) (Editor's column), 988
Diencephalic syndrome of childhood, secretion of growth hormone in (Pimstone et al.), 886
Dietary and iron supplementation, effects on hematocrit levels of preschool children (Brigety and Pearson), 757
Diphenylhydantoin intoxication, acute, following halothane anesthesia (Karlin and Kutt), 941
pseudolymphoma induced by (Choovivathanavanich, Wallace, and Scaglione), 621
Disaccharidase deficiency in children with immunologic deficits (Dubois et al.), 377
Disease, chronic granulomatous, and Job's syndrome (Davis, Iannetta, and Kaplan) (Letter), 159; (Brody et al.) (Letter), 160; (Bannatyne, Skowron, and Weber) (Reply), 161
collagen-like, and thyrotoxicosis, in three sisters of American Indian extraction (Librik et al.), 64
cyanotic heart, polycythemia in—study of altered coagulation (Komp and Sparrow), 231
granulomatous, chronic, of childhood in 17-year-old boy (Mattison et al.), 890
heart, congenital, cyanotic, clotting and bleeding in (Naiman) (Editor's column), 333
congenital, cyanotic, hemostasis in (Ekert et al.), 221
hyperviscosity in (Kontras et al.), 214
Hodgkin's, congenital hypogammaglobulinemia preceding: a case report and review of the literature (Gellman and Vietti) (BCLO), 131
hyaline membrane, intermittent postive pressure ventilation in (Heese et al.), 183
negative pressure assisted ventilation in infants with (Stahlman et al.), 174
use of assisted ventilation in therapy of: commentary (Behrman), 169
renal (Askin) (Letter), 979; (Gruskin) (Reply), 980
degenerative, pseudohermaphroditism, Wilms' tumor, and hypertension, syndrome of (Drash et al.), 585
spectrum of: herpes simplex virus infection in infants (Torphy et al.), 405
Wolman's: deficiency of E600-resistant acid esterase activity with storage of lipids in lysosomes (Lake and Patrick), 262
Dissecting aneurysm in childhood (Strauss and McAdams), 578
Down's syndrome, meiotic evidence in, for 21/21 chromosome translocation or isochromosome (Hecht et al.) (BCLO), 298

XUM

Drugs, variously manufactured, therapeutic reliability of: generic-therapeutic equivalence (Shirkey), 774

Dysautonomia, familial, in North African Jewish family, clinical entity simulating (Schmidt et al.), 283

Dysgammaglobulinemia type I, thymic alymphoplasia previously reported as (Cashman, Navin, and Chandor), 722

Dysgenesis, gonadal, and hypoplastic left heart syndrome (Lintermans) (Letter), 979

Dysplasia, frontonasal (Sedano et al.), 906

E

Ear(s) and palms, abnormalities of, and facial asymmetry: dominantly inherited developmental syndrome (Aase and Smith) (BCLO), 928

middle, renal, and vaginal anomalies, a second family with (Turner) (Letter), 641

Electrocardiographic observations in postmature infants (Ackerman, Sperling, and O'Loughlin), 399

Electrolytes, muscle, total body potassium, and glycogen in malnourished children (Alleyne, Millward, and Scullard), 75

Encephalitis, neonatal herpesvirus hominis, 5-iodo-2′-deoxyuridine in (Charnock and Cramblett), 459

Entity, clinical, simulating familial dysautonomia in North African Jewish family (Schmidt et al.), 283

Erythematosus, lupus, systemic, occurrence in association with ethosuccimide therapy (Dabbous and Idriss), 617

Erythrocyte glucose-6-phosphate dehydrogenase deficiency in newborn infants, fluorescent spot test for screening (Yeung et al.) (BCLO), 931

sedimentation rate, micro, in newborn infants (Evans, Glass, and Mercado) (BCLO), 448

Erythromycin and other antibiotics, resistance of Mycoplasma pneumoniae to (Niitu et al.), 438

Escherichia coli, neonatal mastitis due to (Stetler et al.) (BCLO), 611

E600-resistant acid esterase activity with storage of lipids in lysosomes, deficiency of: Wolman's disease (Lake and Patrick), 262

Eskimo, Alaskan, salt-losing congenital adrenal hyperplasia in (Rosenbloom) (Letter), 326; (Hirshfeld) (Reply), 327

Esterase activity, acid, E600-resistant, with storage of lipids in lysosomes, deficiency of: Wolman's disease (Lake and Patrick), 262

Ethosuccimide therapy, occurrence of systemic lupus erythematosus in association with (Dabbous and Idriss), 617

Eye anomalies, anal atresia, and additional small abnormal acrocentric chromosome (47,XX,mar+): report of case (Weber, Dooley, and Sparkes), 594

F

Facial asymmetry and abnormalities of palms and ears: dominantly inherited developmental syndrome (Aase and Smith) (BCLO), 928

Familial dysautonomia in North African Jewish family, clinical entity simulating (Schmidt et al.), 283

Fatal illness, care of child with (Olmsted) (Editor's column), 814

Fatally ill children, attitudes of pediatricians toward care (Wiener), 700

Fetal health, assessment by analysis of maternal steroids (Reynolds), 464

Fever, Rocky Mountain spotted, in children (Haynes, Sanders, and Cramblett), 685

Fibroblasts, cultivated, ultrastructure of, in cystic fibrosis of pancreas (Bartman, Wiesmann, and Blanc), 430

Fibrosis, cystic, massive hemoptysis in (Holsclaw, Grand, and Shwachman), 829

of pancreas, ultrastructure of cultivated fibroblasts in (Bartman, Wiesmann, and Blanc), 430

parotid gland sialograms in (Leake, Khaw, and Shwachman) (BCLO), 301

sodium concentration in unstimulated parotid saliva and on oral mucosa in normal subjects and in patients with (Wiesmann, Boat, and di Sant' Agnese) (BCLO), 444

Fluorescent spot test for screening erythrocyte glucose-6-phosphate dehydrogenase deficiency in newborn babies (Yeung et al.) (BCLO), 931

Foods, strained, unsalted, acceptance by normal infants (Fomon, Thomas, and Filer), 242

4p⁻ syndrome, two patients with: human chromosomal deletion (Arias et al.), 82

Frontonasal dysplasia (Sedano et al.), 906

G

Galactosemia, pseudotumor cerebri in (Huttenlocher, Hillman, and Hsia), 902

Gas, blood, tensions in newborn infants, effect of cooling on (Stephenson, Du, and Oliver), 848

Gastrointestinal absorption of kerosene, role in producing pneumonitis in dogs (Wolfe, Brodeur, and Shields), 867

Gastrointestinal—Cont'd
polyposis, diffuse, associated with chronic blood loss, hypoproteinemia, and anasarca in infant (Arbeter, Courtney, and Gaynor) (BCLO), 609
surgical emergencies in newborn infant (Talbert, Felman, and DeBusk), 783
Gaucher's cells in acute leukemia of childhood (Witzleben et al.) (BCLO), 129
Generic-therapeutic equivalence: therapeutic reliability of variously manufactured drugs (Shirkey), 774
Genetic condition, benign: cystathioninemia (Scott et al.), 571
Gestation, length of, and birth weight, relationship to intellectual development at ages 8 to 10 years (Wiener), 694
Gestational age and birth weight (Battaglia) (Editor's column), 812
Gigantism, cerebral: concentrations of amino acids in plasma and muscle (Bejar et al.), 105
Gland sialograms, parotid, in cystic fibrosis (Leake, Khaw, and Shwachman) (BCLO), 301
Gluconeogenesis and glycolysis in glycogenoses of liver, studies of factors affecting (Sadeghi-Nejad, Loridan, and Senior), 561
Glucose-6-phosphate dehydrogenase, erythrocyte deficiency in newborn infants, fluorescent spot test for screening (Yeung et al.) (BCLO), 931
Glutathione peroxidase, red blood cell, relation to neonatal jaundice (Whaun and Oski), 555
Gluteal injection, misplaced, sciatic nerve injury following (Gilles and Matson), 247
Glycine and imino acids, renal iminoglycinuria without intestinal malabsorption of (Tancredi, Guazzi, and Auricchio), 386
Glycogenoses of liver, studies of factors affecting gluconeogenesis and glycolysis in (Sadeghi-Nejad, Loridan, and Senior), 561
Glycolysis and gluconeogenesis in glycogenoses of liver, studies of factors affecting (Sadeghi-Nejad, Loridan, and Senior), 561
Gonadal dysgenesis and hypoplastic left heart syndrome (Lintermans) (Letter), 979
Granulocytopenia, lupus-like syndrome, and other complications of propylthiouracil therapy (Amrhein, Kenny, and Ross), 54
Granulomatous disease, chronic, and Job's syndrome (Davis, Iannetta, and Kaplan) (Letter), 159; (Brody et al.) (Letter), 160; (Bannatyne, Skowron, and Weber) (Reply), 161
of childhood in 17-year-old boy (Mattison et al.), 890
Growth, brain, rapid, upon restoration of adequate nutrition causing false radiologic evidence of increased intracranial pressure (De Levie and Nogrady), 523
hair, scalp, poor (Gorlin) (Letter), 639
hormone, human, inhibition of thyroidal radioiodine uptake by (Root, Bongiovanni, and Eberlein), 422
levels, insulin, and blood sugar in an anencephalic infant before and after intravenous administration of glucose (Grunt and Reynolds), 112
secretion in diencephalic syndrome of childhood (Pimstone et al.), 886

H

Hair growth, scalp, poor (Gorlin) (Letter), 639
root sheath for X-chromatin determination, use of (Katz and Wright) (BCLO), 292
Halothane anesthesia, acute diphenylhydantoin intoxication following (Karlin and Kutt), 941
Hawaii, racial groups of, pyloric stenosis in (Shim, Campbell, and Wright), 89
Heart disease, congenital, cyanotic, clotting and bleeding in (Naiman) (Editor's column), 333
cyanotic, hemostasis in (Ekert et al.), 221
hyperviscosity in (Kontras et al.), 214
cyanotic, polycythemia in—study of altered coagulation (Komp and Sparrow), 231
syndrome, hypoplastic left, and gonadal dysgenesis (Lintermans) (Letter), 979
Hematocrit, hemoglobin, and plasma iron values: nutritional status of preschool children (Owen, Nelsen, and Garry) (BCLO), 761
levels of preschool children, effects of dietary and iron supplementation on (Brigety and Pearson), 757
Hematoma, subdural, retrocerebellar: infantile hydrocephalus (Gilles and Shillito), 529
Hemoglobin, hematocrit, and plasma iron values: nutritional status of preschool children (Owen, Nelsen, and Garry) (BCLO), 761
S, new diagnostic test for (Ballard et al.), 117
Hemolytic-uremic syndrome, coagulation studies in (Sanchez Avalos et al.), 538
Hemophilus influenzae otitis media, treatment of (Hoffman) (Letter), 802; (McCracken, Eichenwald, and Nelson) (Reply), 802
Hemoptysis, massive, in cystic fibrosis (Holsclaw, Grand, and Shwachman), 829

XUM

Hemorrhage in the neonate, fatal disseminated herpes simplex virus infection and (Miller et al.), 409

Hemorrhagic renal necrosis in infancy: relationship to radiopaque compounds (Gilbert et al.), 49

Hemostasis in cyanotic congenital heart disease (Ekert et al.), 221

Hepatitis, active chronic, in infancy (Poley) (Letter), 982

Hernia, cervical, of lung (Jones) (BCLO), 122

Heroin withdrawal syndrome (Zelson) (Letter), 483; (Kahn, Neumann, and Polk) (Reply), 483

Herpesvirus hominis encephalitis, neonatal, 5-iodo-2′-deoxyuridine in (Charnock and Cramblett), 459

infection and central nervous system malformation (Gooding) (Letter), 980; (South) (Reply), 981

neonatal, treatment of (South and Rawls) (Editor's column), 497

Herpes simplex virus infection, disseminated, fatal, and hemorrhage in the neonate (Miller et al.), 409

in infants: spectrum of disease (Torphy et al.), 405

Heterotopic pharyngeal brain tissue: an unusual cause of neonatal respiratory obstruction (Cohen and Abt) (BCLO), 119

Histamine iontophoresis, arterialized capillary sampling using (Winquist and Stamm) (BCLO), 455

Histology and renal function in infants and piglets, effects of angiography on (Gruskin et al.), 41

umbilical cord, value of, in management of potential perinatal infection (Overbach, Daniel, and Cassady), 22

Hodgkin's disease, congenital hypogammaglobulinemia preceding: a case report and review of the literature (Gellman and Vietti) (BCLO), 131

Hominis encephalitis, herpesvirus, neonatal, 5-iodo-2′-deoxyuridine in (Charnock and Cramblett), 459

Homogentisic acid in urine, rapid semiquantitative determination of: alcaptonuria (Kang and Gerald) (BCLO), 939

Homotransplantation, renal, in children (Fine et al.), 347

Hormone, growth, secretion in diencephalic syndrome of childhood (Pimstone et al.), 886

human growth, inhibition of thyroidal radioiodine uptake by (Root, Bongiovanni, and Eberlein), 422

levels, growth, insulin, and blood sugar in an anencephalic infant before and after intravenous administration of glucose (Grunt and Reynolds), 112

Hospital bacteria, bacterial colonization of newborn infants and subsequent acquisition (Ehrenkranz), 839

child's day in, videotape sampling of (Schulman, Kaspar, and Child), 728

Hyaline membrane disease, intermittent positive pressure ventilation in (Heese et al.), 183

negative pressure assisted ventilation in infants with (Stahlman et al.), 174

use of assisted ventilation in therapy of: commentary (Behrman), 169

Hydrocephalus, infantile: retrocerebellar subdural hematoma (Gilles and Shillito), 529

Hydrocortisone and streptomycin in tuberculous meningitis, evaluation of intrathecal therapy with (Freiman and Geefhuysen), 895

Hyperbilirubinemia, advertised treatment of (Wilson) (Letter), 485

Hyperplasia, salt-losing congenital adrenal, in Alaskan Eskimo (Rosenbloom) (Letter), 326; (Hirshfeld) (Reply), 327

Hypersensitivity, tuberculin delayed, depression by live attenuated mumps virus (Kupers et al.), 716

Hypertension, Wilms' tumor, pseudohermaphroditism, and degenerative renal disease, syndrome of (Drash et al.), 585

Hyperviscosity in congenital heart disease (Kontras et al.), 214

Hypogammaglobulinemia, congenital, preceding Hodgkin's disease: a case report and review of the literature (Gellman and Vietti) (BCLO), 131

Hypoglycemia, ketotic, effects of infusion of ketones in children with (Loridan and Senior), 69

Hypoparathyroidism, primary, ring chromosome No. 16 in infant with (Pergament et al.), 745

Hypoplasia, renal, bilateral, with oligonephronia (Scheinman and Abelson), 369

Hypoplastic left heart syndrome and gonadal dysgenesis (Lintermans) (Letter), 979

Hypoproteinemia, chronic blood loss, and anasarca in infant, diffuse gastrointestinal polyposis associated with (Arbeter, Courtney, and Gaynor) (BCLO), 609

I

Imino acids and glycine, renal iminoglycinuria without intestinal malabsorption of (Tancredi, Guazzi, and Auricchio), 386

Iminoglycinuria, renal, without intestinal malabsorption of glycine and imino acids (Tancredi, Guazzi, and Auricchio), 386

Immunologic deficits, disaccharidase deficiency in children with (Dubois et al.), 377
Indian, American, extraction, thyrotoxicosis and collagen-like disease in three sisters of (Librik et al.), 64
children, American, natal teeth in (Gordon and and Langley) (BCLO), 613
Infection(s), bacterial, in newborn infant (Fulginiti) (Editor's column), 646
fatal disseminated herpes simplex virus, and hemorrhage in the neonate (Miller et al.), 409
herpesvirus, and central nervous system malformation (Gooding) (Letter), 980; (South) (Reply), 981
neonatal, treatment of (South and Rawls) (Editor's column), 497
herpes simplex virus, in infants: spectrum of disease (Torphy et al.), 405
potential perinatal, value of umbilical cord histology in management of (Overbach, Daniel, and Cassady), 22
streptococcal, skin, treatment of (Dillon), 676
Inheritance, polygenic, of certain common malformations (Smith and Aase), 653
Injection, gluteal, misplaced, sciatic nerve injury following (Gilles and Matson), 247
Insulin, blood sugar, and growth hormone levels in an anencephalic infant before and after intravenous administration of glucose (Grunt and Reynolds), 112
Intellectual development at ages 8 to 10 years, relationship of birth weight and length of gestation to (Wiener), 694
Interferon production by human leukocytes, ontogeny of (Ray), 94
Interscapular skin temperatures in newborn infant (Grausz), 752
Intestinal malabsorption of glycine and imino acids, renal iminoglycinuria without (Tancredi, Guazzi, and Auricchio), 386
Intracranial pressure, increased, rapid brain growth upon restoration of adequate nutrition causing false radiologic evidence of (De Levie and Nogrady), 523
Intrathecal therapy, evaluation with streptomycin and hydrocortisone in tuberculous meningitis (Freiman and Geefhuysen), 895
Iontophoresis, histamine, arterialized capillary sampling using (Winquist and Stamm) (BCLO), 455
Iron and dietary supplementation, effects on hematocrit levels of preschool children (Brigety and Pearson), 757
deficiency anemia, red cell metabolism in: relationship between red cell survival and alterations in red cell metabolism (Macdougall, Judisch, and Mistry), 660
Iron—Cont'd
in stools, simple test for detection (Macdougall) (BCLO), 764
plasma, values, hemoglobin, and hematocrit: nutritional status of preschool children (Owen, Nelsen, and Garry) (BCLO), 761
Isochromosome or 21/21 chromosome translocation, meiotic evidence in Down's syndrome for (Hecht et al.) (BCLO), 298

J

Jaundice, neonatal, phenobarbital for (Behrman and Fisher), 945
relation of red blood cell glutathione peroxidase to (Whaun and Oski), 555
Jewish, North African, family, clinical entity simulating familial dysautonomia in (Schmidt et al.), 283
Job's syndrome (Levin) (Letter), 326
and chronic granulomatous disease (Davis, Iannetta, and Kaplan) (Letter), 159; (Brody et al.) (Letter), 160; (Bannatyne, Skowron, and Weber) (Reply), 161

K

Kernicterus, studies in: saturation of serum proteins with bilirubin during neonatal life and its relationship to brain damage at five years (Odell, Storey, and Rosenberg), 12
Ketones, effects of infusion of, in children with ketotic hypoglycemia (Loridan and Senior), 69
Kidneys, polycystic, and other malformations, trisomy C in infant with (Juberg, Gilbert, and Salisbury), 598
Klinefelter's syndrome, effects of testosterone treatment in (Myhre et al.), 267

L

Lactic acidosis, chronic, of infancy (Greene, Schubert, and Hug), 853
Leukemia, acute—relapse after prolonged remission (Feldman and Tan) (BCLO), 926
childhood, acute, maintenance therapy in (Nagao, Lampkin, and Mauer), 135
Gaucher's cells in (Witzleben et al.), (BCLO), 129
need for chemotherapy after prolonged complete remission in (Krivit, Gilchrist, and Beatty), 138

XUM

Leukemia—Cont'd
therapy of, during remission (McElfresh) (Editor's column), 164
Leukocytes, human, ontogeny of interferon production by (Ray), 94
of neonates (Miller) (Letter), 158; (Kauder) (Reply), 159
of newborn infants, metabolic activities in (Park, Holmes, and Good), 237
Lipids in lysosomes, deficiency of E600-resistant acid esterase activity with storage of: Wolman's disease (Lake and Patrick), 262
Liver, glycogenoses of, studies of factors affecting gluconeogenesis and glycolysis in (Sadeghi-Nejad, Loridan, and Senior), 561
Lung, cervical hernia of (Jones) (BCLO), 122
Lupus erythematosis, systemic, occurrence in association with ethosuccimide therapy (Dabbous and Idriss), 617
-like syndrome, granulocytopenia, and other complications of propylthiouracil therapy (Amrhein, Kenny, and Ross), 54
Lysosomes, deficiency of E600-resistant acid esterase activity with storage of lipids in: Wolman's disease (Lake and Patrick), 262

M

Magnesium, serum, in children with cirrhosis (Cohen, McNamara, and Finberg) (BCLO), 453
Malformations, cardiac, congenital, and dextroamphetamine (Gilbert and Khoury) (Letter), 638
certain common, polygenic inheritance of (Smith and Aase), 653
Malnourished children, total body potassium, muscle electrolytes, and glycogen in (Alleyne, Millward, and Scullard), 75
Mask and bag therapy, intermittent: alternative approach to respiratory therapy for infants with severe respiratory distress (Gruber and Klaus), 194
face, use of: positive pressure ventilation in newborn infant, (Helmrath, Hodson, and Oliver), 202
Mastitis, neonatal, due to Escherichia coli (Stetler et al.) (BCLO), 611
Maternal steroids, assessment of fetal health by analysis of (Reynolds), 464
thiazides, effects on platelet counts of newborn infants (Merenstein, O'Loughlin, and Plunket) (BCLO), 766
Meiotic evidence in Down's syndrome for 21/21 chromosome translocation or isochromosome (Hecht et al.) (BCLO), 298
Meningitis, bacterial, neonatal (Overall), 499
tuberculous, evaluation of intrathecal therapy with streptomycin and hydrocortisone in (Freiman and Geefhuysen), 895
Mentally retarded patients, low-birth-weight, full-term, chromosome studies in (Chen et al.), 393
Metabolic activities in leukocytes of newborn infants (Park, Holmes, and Good), 237
Micro-erythrocyte sedimentation rate in newborn infants (Evans, Glass, and Mercado) (BCLO), 448
Mist therapy: rationale and practice (Parks), 305
Mongolism, mosiac: clinical correlations (Kohn et al.), 874
cytogenetic studies (Taysi, Kohn, and Mellman), 880
Mosaic mongolism: clinical correlations (Kohn et al.), 874
cytogenetic studies (Taysi, Kohn, and Mellman), 880
Mosaicism, sex chromosome, in disorders of sexual differentiation: incidence in various tissues (Ferrier, Ferrier, and Kelley), 739
Motor behavior of small for gestational age newborn infants (Michaelis, Schulte, and Nolte), 208
Mucosa, oral, in normal subjects and in patients with cystic fibrosis, sodium concentration in unstimulated parotid saliva and on (Wiesmann, Boat, and di Sant' Agnese) (BCLO), 444
Mumps virus, attenuated, live, depression of tuberculin delayed hypersensitivity by (Kupers et al.), 716
Muscle electrolytes, total body potassium, and glycogen in malnourished children (Alleyne, Millward, and Scullard), 75
Mycobacterial species from tissues and secretions, comparison with: specificity of PPD skin tests in childhood tuberculin converters (Arnold, Scott, and Spitznagel), 512
Mycoplasma pneumoniae, resistance to erythromycin and other antibiotics (Niitu et al.), 438

N

Necrosis, hemorrhagic renal, in infancy: relationship to radiopaque compounds (Gilbert et al.), 49
Nephrotic syndrome and renal vein thrombosis: case report with protein selectivity studies (Trygstad et al.), 861
of childhood, alternate-day steroid therapy in: dogma disputed (Abramowicz, Edelmann, and Spitzer) (Editor's column), 336

Neuroblastoma, in situ, associated with adrenal cyst (Tubergen and Heyn) (BCLO), 451

Neurofibromatosis in childhood (Fienman and Yakovac), 339

Nerve, sciatic, injury following misplaced gluteal injection (Gilles and Matson), 247

Nervous system malformation, central, and herpesvirus infection (Gooding) (Letter), 980; (South) (Reply), 981

Nomenclature, chromosome (Summitt), 314

Nutrition, adequate, causing false radiologic evidence of increased intracranial pressure, rapid brain growth upon restoration of (De Levie and Nogrady), 523

Nutritional status of preschool children: hemoglobin, hematocrit, and plasma iron values (Owen, Nelsen, and Garry) (BCLO), 761

O

Office(s), physicians', accuracy of throat cultures processed in (Rosenstein, Markowitz, and Gordis) (BCLO), 606

screening for bacteriuria in early infancy: collection of suitable urine specimen (Randolph and Majors) (BCLO), 934

Oligonephronia, bilateral renal hypoplasia with (Scheinman and Abelson), 369

Oral mucosa in normal subjects and in patients with cystic fibrosis, sodium concentration in unstimulated parotid saliva and on (Wiesmann, Boat, and di Sant' Agnese) (BCLO), 444

Osteodystrophy, renal, total parathyroidectomy in treatment of (Fine et al.), 32

Otitis media, acute, treatment of (Feingold) (Letter), 639; (Brownlee) (Reply), 639

Hemophilus influenzae, treatment of (Hoffman) (Letter), 802; (McCracken, Eichenwald, and Nelson) (Reply), 802

P

Palms and ears, abnormalities of, and facial asymmetry: dominantly inherited developmental syndrome (Aase and Smith) (BCLO), 928

Pancreas, cystic fibrosis of, ultrastructure of cultivated fibroblasts in (Bartman, Wiesmann, and Blanc), 430

Parathyroidectomy, total, in treatment of renal osteodystrophy (Fine et al.), 32

Parotid gland sialograms in cystic fibrosis (Leake, Khaw, and Shwachman) (BCLO), 301

Parotid—Cont'd

saliva, unstimulated, and on oral mucosa in normal subjects and in patients with cystic fibrosis, sodium concentration in (Wiesmann, Boat, and di Sant' Agnese) (BCLO), 444

Pediatric house officer, death and (Schowalter), 706

Pediatricians, attitudes toward care of fatally ill children (Wiener), 700

Pericardial effusion with Tc-99m pertechnetate, rapid diagnosis of (Samuels and Stewart) (BCLO), 125

Perinatal infection, potential, value of umbilical cord histology in management of (Overbach, Daniel, and Cassady), 22

Peroxidase, red blood cell glutathione, relation to neonatal jaundice (Whaun and Oski), 555

Pertechnetate, Tc-99m, rapid diagnosis of pericardial effusion with (Samuels and Stewart) (BCLO), 125

Pharyngeal brain tissue, heterotopic: an unusual cause of neonatal respiratory obstruction (Cohen and Abt) (BCLO), 119

Phenobarbital for neonatal jaundice (Behrman and Fisher), 945

Phenylketonuria, approach to management of (Koch et al.), 815

Plasma iron values, hemoglobin, and hematocrit: nutritional status of preschool children (Owen, Nelsen, and Garry) (BCLO), 761

and muscle, concentrations of amino acids in: cerebral gigantism (Bejar et al.), 105

protein in preadolescent children, percentage of testosterone, androstenedione, and dehydroisoandrosterone bound to (Forest and Migeon), 732

Platelet counts of newborn infants, effects of maternal thiazides on (Merenstein, O'Loughlin, and Plunket) (BCLO), 766

Plumbism, acute, on abdominal roentgenogram, bismuth ingestion simulating (Heller and Waitsman) (Letter), 637

Pneumocystis carinii pneumonia in siblings (Gentry and Remington) (BCLO), 769

pneumonia in three full-term siblings (Bazaz et al.) (BCLO), 767

Pneumonia, Pneumocystis carinii, in siblings (Gentry and Remington) (BCLO), 769

in three full-term siblings (Bazaz et al.) (BCLO), 767

Pneumopericardium, spontaneous, in newborn infant (Grosfeld, Kilman, and Frye) (BCLO), 614

Pneumothorax and chylothorax in neonatal period (Chernick and Reed), 624

Poisoning, bismuth ingestion simulating acute plumbism on abdominal roentgenogram (Heller and Waitsman) (Letter), 637

XUM

Poisoning—Cont'd
intoxication, diphenylhydantoin, acute, following halothane anesthesia (Karlin and Kutt), 941
treatment of—aggressive or conservative? (James) (Editor's column), 651
Polycystic kidneys and other malformations, trisomy C in infant with (Juberg, Gilbert, and Salisbury), 598
Polycythemia in cyanotic heart disease—study of altered coagulation (Komp and Sparrow), 231
Polyethylene tubing, perforation of right atrial wall by: report of two unusual cases (Friedman and Schieken) (BCLO), 923
Polygenic inheritance of certain common malformations (Smith and Aase), 653
Polyposis, gastrointestinal, diffuse, associated with chronic blood loss, hypoproteinemia, and anasarca in infant (Arbeter, Courtney, and Gaynor) (BCLO), 609
PPD skin tests in childhood tuberculin converters, specificity of: comparison with mycobacterial species from tissues and secretions (Arnold, Scott, and Spitznagel), 512
Potassium, total body, muscle electrolytes, and glycogen in malnourished children (Alleyne, Millward, and Scullard), 75
Pressure, intracranial, increased, rapid brain growth upon restoration of adequate nutrition causing false radiologic evidence of (De Levie and Nogrady), 523
negative, assisted ventilation in infants with hyaline membrane disease (Stahlman et al.), 174
positive, intermittent, in hyaline membrane disease (Heese et al.), 183
in newborn infant: use of face mask (Helmrath, Hodson, and Oliver), 202
Propylthiouracil therapy, granulocytopenia, lupus-like syndrome, and other complications of (Amrhein, Kenny, and Ross), 54
Protein(s), plasma, in preadolescent children, percentage of testosterone, androstenedione, and dehydroisoandrosterone bound to (Forest and Migeon), 732
selectivity studies, case report with: renal vein thrombosis and nephrotic syndrome (Trygstad et al.), 861
serum, saturation of, with bilirubin during neonatal life and its relationship to brain damage at five years: studies in kernicterus (Odell, Storey, and Rosenberg), 12
Prothrombin, measurement (Glueck et al.), 914
Pseudo vitamin D-deficiency rickets (Suster and Paala) (BCLO), 937
Pseudohermaphroditism, Wilms' tumor, hypertension, and degenerative renal disease, syndrome of (Drash et al.), 585
Pseudolymphoma induced by diphenylhydantoin (Choovivathanavanich, Wallace, and Scaglione), 621
Pseudotumor cerebri in galactosemia (Huttenlocher, Hillman, and Hsia), 902
Pyloric stenosis in racial groups of Hawaii (Shim, Campbell, and Wright), 89

R

Radioiodine uptake, thyroidal, inhibition by human growth hormone (Root, Bongiovanni, and Eberlein), 422
Radiologic evidence, false, of increased intracranial pressure, rapid brain growth upon restoration of adequate nutrition causing (De Levie and Nogrady), 523
Radiopaque compounds, relationship to hemorrhagic renal necrosis in infancy (Gilbert et al.), 49
Reflex time, Achilles, in thyroid disorders (Costin, Kaplan, and Ling), 277
Renal cell carcinoma in children: clinicopathologic study of 15 cases and review of the literature (Dehner, Leestma, and Price), 358
disease (Askin) (Letter), 979; (Gruskin) (Reply), 980
degenerative, pseudohermaphroditism, Wilms' tumor, and hypertension, syndrome of (Drash et al.), 585
function and histology in infants and piglets, effects of angiography on (Gruskin et al.), 41
homotransplantation in children (Fine et al.), 347
hypoplasia, bilateral, with oligonephronia (Scheinman and Abelson), 369
iminoglycinuria without intestinal malabsorption of glycine and imino acids (Tancredi, Guazzi, and Auricchio), 386
necrosis, hemorrhagic, in infancy: relationship to radiopaque compounds (Gilbert et al.), 49
osteodystrophy, total parathyroidectomy in treatment of (Fine et al.), 32
vaginal, and middle ear anomalies, a second family with (Turner) (Letter), 641
vein thrombosis and nephrotic syndrome: case report with protein selectivity studies (Trygstad et al.), 861
Respiratory distress, severe, alternative approach to respiratory therapy for infants with: intermittent mask and bag therapy (Gruber and Klaus), 194
obstruction, neonatal, an unusual cause of: heterotopic pharyngeal brain tissue (Cohen and Abt) (BCLO), 119

Retrocerebellar subdural hematoma: infantile hydrocephalus (Gilles and Shillito), 529

Rickets, pseudo vitamin D-deficiency (Suster and Paala) (BCLO), 937

Ring chromosome No. 16 in infant with primary hypoparathyroidism (Pergament et al.), 745

Rocky Mountain spotted fever in children (Haynes, Sanders, and Cramblett), 685

Roentgenogram, abdominal, bismuth ingestion simulating acute plumbism on (Heller and Waitsman) (Letter), 637

Root sheath, hair, for X-chromatin determination, use of (Katz and Wright) (BCLO), 292

Rubella, congenital, in twins (Montgomery and Stockdell) (BCLO), 772

S

Saliva, unstimulated parotid, and on oral mucosa in normal subjects and in patients with cystic fibrosis, sodium concentration in (Wiesmann, Boat, and di Sant' Agnese) (BCLO), 444

Salt-losing congenital adrenal hyperplasia in Alaskan Eskimo (Rosenbloom) (Letter), 326; (Hirshfeld) (Reply), 327

Scalp hair growth, poor (Gorlin) (Letter), 639

Sciatic nerve injury following misplaced gluteal injection (Gilles and Matson), 247

Scoring, convulsion, in treatment of neonatal tetanus (Rhea et al.), 949

Screening, office, for bacteriuria in early infancy: collection of suitable urine specimen (Randolph and Majors) (BCLO), 934

Sedimentation rate, erythrocyte, micro, in newborn infants (Evans, Glass, and Mercado) (BCLO), 448

Septicemia, neonatal (Gotoff and Behrman), 142

Septostomy, atrial, balloon, complication of: inability to deflate catheter balloon (Ellison et al.) (BCLO), 604

(Rashkind) (Editor's column), 649

Serum magnesium in children with cirrhosis (Cohen, McNamara, and Finberg) (BCLO), 453

Serum proteins, saturation of, with bilirubin during neonatal life and its relationship to brain damage at five years: studies in kernicterus (Odell, Storey, and Rosenberg), 12

Sex chromosome mosaicism in disorders of sexual differentiation: incidence in various tissues (Ferrier, Ferrier, and Kelley), 739

Sheath, root, hair, for X-chromatin determination, use of (Katz and Wright) (BCLO), 292

Sialograms, gland, parotid, in cystic fibrosis (Leake, Khaw, and Shwachman) (BCLO), 301

Skin infections, streptococcal, treatment of (Dillon), 676

temperatures, interscapular in newborn infant (Grausz), 752

tests, PPD, in childhood tuberculin converters, specificity of: comparison with mycobacterial species from tissues and secretions (Arnold, Scott, and Spitznagel), 512

Snake bite, venomous, observations on effects on children and adults (Sadan and Soroker), 711

Sodium concentration in unstimulated parotid saliva and on oral mucosa in normal subjects and in patients with cystic fibrosis (Wiesmann, Boat, and di Sant' Agnese) (BCLO), 444

Spot test, fluorescent, for screening erythrocyte glucose-6-phosphate dehydrogenase deficiency in newborn babies (Yeung et al.) (BCLO), 931

Sprue, tropical, in children (Santiago-Borrero, Maldonado, and Horta), 470

Stenosis, pyloric, in racial groups of Hawaii (Shim, Campbell, and Wright), 89

Steroid(s), maternal, assessment of fetal health by analysis of (Reynolds), 464

therapy, alternate-day, in nephrotic syndrome of childhood: dogma disputed (Abramowicz, Edelmann, and Spitzer) (Editor's column), 336

Stools, iron in, simple test for detection (Macdougall) (BCLO), 764

Strained unsalted foods, acceptance by normal infants (Fomon, Thomas, and Filer), 242

Streptococcal skin infections, treatment of (Dillon), 676

Streptomycin and hydrocortisone in tuberculous meningitis, evaluation of intrathecal therapy with (Freiman and Geefhuysen), 895

Subdural hematoma, retrocerebellar: infantile hydrocephalus (Gilles and Shillito), 529

Sugar, blood, insulin, and growth hormone levels in an anencephalic infant before and after intravenous administration of glucose (Grunt and Reynolds), 112

determinations, cerebrospinal fluid (Rosenfeld) (Letter), 328; (Feinbloom and Alpert) (Reply), 328

Surgical emergencies, gastrointestinal, in newborn infant (Talbert, Felman, and DeBusk), 783

XUM

Syndrome, diencephalic, of childhood, secretion of growth hormone in (Pimstone et al.), 886
dominantly inherited developmental: facial asymmetry and abnormalities of palms and ears (Aase and Smith) (BCLO), 928
Down's, meiotic evidence in, for 21/21 chromosome translocation or isochromosome (Hecht et al.) (BCLO), 298
4p–, two patients with: human chromosomal deletion (Arias et al.), 82
hemolytic-uremic, coagulation studies in (Sanchez Avalos et al.), 538
heroin withdrawal (Zelson) (Letter), 483; (Kahn, Neumann, and Polk) (Reply), 483
hypoplastic left heart, and gonadal dysgenesis (Lintermans) (Letter), 979
Job's (Levin) (Letter), 326
and chronic granulomatous disease (Davis, Iannetta, and Kaplan) (Letter), 159; (Brody et al.) (Letter), 160; (Bannatyne, Skowron, and Weber) (Reply), 161
Klinefelter's, effects of testosterone treatment in (Myhre et al.), 267
lupus-like, granulocytopenia, and other complications of propylthiouracil therapy (Amrhein, Kenny, and Ross), 54
nephrotic, and renal vein thrombosis: case report with protein selectivity studies (Trygstad et al.), 861
of childhood, alternate-day steroid therapy in: dogma disputed (Abramowicz, Edelmann, and Spitzer) (Editor's column), 336
of pseudohermaphroditism, Wilms' tumor, hypertension, and degenerative renal disease (Drash et al.), 585
Zollinger-Ellison (Ament) (Letter), 484; (Rosenlund) (Reply), 485
System malformation, central nervous, and herpesvirus infection (Gooding) (Letter), 980; (South) (Reply), 981
Systemic lupus erythematosis, occurrence in association with ethosuccimide therapy (Dabbous and Idriss), 617

T

Tc-99m pertechnetate, rapid diagnosis of pericardial effusion with (Samuels and Stewart) (BCLO), 125
Teeth, natal, in American Indian children (Gordon and Langley) (BCLO), 613
Temperatures, skin, interscapular, in newborn infant (Grausz), 752
Tensions, blood gas, in newborn infants, effect of cooling on (Stephenson, Du, and Oliver), 848
Test(s), fluorescent spot, for screening erythrocyte glucose-6-phosphate dehydrogenase deficiency in newborn babies (Yeung et al.) (BCLO), 931
new diagnostic, for hemoglobin S (Ballard et al.) (BCLO), 117
simple, for detection of iron in stools (Macdougall) (BCLO), 764
skin, PPD, in childhood tuberculin converters, specificity of: comparison with mycobacterial species from tissues and secretions (Arnold, Scott, and Spitznagel), 512
Testosterone, androstenedione, and dehydroisoandrosterone, percentage bound to plasma protein in preadolescent children (Forest and Migeon), 732
treatment in Klinefelter's syndrome, effects of (Myhre et al.), 267
Tetanus, neonatal, convulsion scoring in treatment (Rhea et al.), 949
Tetracyclines (Grossman) (Letter), 802; (McCracken, Eichenwald, and Nelson) (Reply), 803
Thiazides, maternal, effects on platelet counts of newborn infants (Merenstein, O'Loughlin, and Plunket) (BCLO), 766
Throat cultures processed in physicians' offices, accuracy of (Rosenstein, Markowitz, and Gordis) (BCLO), 606
Thrombosis(es), renal vein, and nephrotic syndrome: case report with protein selectivity studies (Trygstad et al.), 861
due to catheterization in infants and children (Wigger, Bransilver, and Blanc), 1
Thymic alymphoplasia, previously reported as dysgammaglobulinemia type I (Cashman, Navin, and Chandor), 722
Thyroid disorders, Achilles reflex time in (Costin, Kaplan, and Ling), 277
Thyroidal radioiodine uptake by human growth hormone, inhibition of (Root, Bongiovanni, and Eberlein), 422
Thyrotoxicosis and collagen-like disease in three sisters of American Indian extraction (Librik et al.), 64
Toxicity, low birth weight related to (Nachman) (Letter), 327
Translocation, chromosome, 21/21, or isochromosome, meiotic evidence in Down's syndrome for (Hecht et al.) (BCLO), 298
Trisomy C in infant with polycystic kidneys and other malformations (Juberg, Gilbert, and Salisbury), 598
Tropical sprue in children (Santiago-Borrero, Maldonado, and Horta), 470
Tuberculin converters, childhood, specificity of PPD skin tests in: comparison with mycobacterial species from tissues and secretions (Arnold, Scott, and Spitznagel), 512

Tuberculin—Cont'd
delayed hypersensitivity, depression by live attenuated mumps virus (Kupers et al.), 716
Tuberculous meningitis, evaluation of intrathecal therapy with streptomycin and hydrocortisone in (Freiman and Geefhuysen), 895
Tubing, polyethylene, perforation of right atrial wall by: report of two unusual cases (Friedman and Schieken) (BCLO), 923
Tumor, Wilms', pseudohermaphroditism, hypertension, and degenerative renal disease, syndrome of (Drash et al.), 585

U

Ultrastructure of cultivated fibroblasts in cystic fibrosis of the pancreas (Bartman, Wiesmann, and Blanc), 430
Unsalted strained foods, acceptance by normal infants (Fomon, Thomas, and Filer), 242
Umbilical cord histology in management of potential perinatal infection, value of (Overbach, Daniel, and Cassady), 22
Urine, homogentisic acid in, rapid semiquantitative determination of: alcaptonuria (Kang and Gerald) (BCLO), 939
specimen, suitable, collection of: office screening for bacteriuria in early infancy (Randolph and Majors) (BCLO), 934

V

Vaginal, renal, and middle ear anomalies, a second family with (Turner) (Letter), 641
Vein thrombosis, renal, and nephrotic syndrome: case report with protein selectivity studies (Trygstad et al.), 861
Venomous snake bite on children and adults, observations on effects (Sadan and Soroker), 711
Ventilation, assisted, in therapy of hyaline membrane disease, use of: commentary (Behrman), 169
intermittent positive pressure, in hyaline membrane disease (Heese et al.), 183
negative pressure assisted, in infants with hyaline membrane disease (Stahlman et al.), 174
pressure, positive, in newborn infant: use of face mask (Helmrath, Hodson, and Oliver), 202
Videotape sampling of child's day in hospital (Schulman, Kaspar, and Child), 728
Virus, fatal disseminated herpes simplex, infection and hemorrhage in the neonate (Miller et al.), 409
herpes simplex, infection in infants: spectrum of disease (Torphy et al.), 405
mumps, attenuated, live, depression of tuberculin delayed hypersensitivity by (Kupers et al.), 716
Vitamin D–deficiency rickets, pseudo (Suster and Paala) (BCLO), 937
K deficiency in infants beyond neonatal period (Nammacher et al.), 549

W

Wilms' tumor, pseudohermaphroditism, hypertension, and degenerative renal disease, syndrome of (Drash et al.), 585
Wolman's disease: deficiency of E600-resistant acid esterase activity with storage of lipids in lysosomes (Lake and Patrick), 262

Z

Zollinger-Ellison syndrome (Ament) (Letter), 484; (Rosenlund) (Reply), 485

*Subject index**

A

A, hexosaminidase, partial deficiency of: juvenile GM_2 gangliosidosis (Okada, Veath, and O'Brien) (BCLO), 1063

Aberration, chromosomal, in infancy, possible sign of: extra posterior cervical skin (Shapiro, Hsu, and Hirschhorn) (BCLO), 690

chromosome, in 50 patients with idiopathic mental retardation and in 50 control subjects (Daly), 444

Abnormalities, coagulation, in cyanotic heart disease (Brodsky) (Letter), 918; (Abildgaard) (Reply), 919; (Komp and Sparrow) (Reply), 920

Abscess, adrenal, in neonate (Favara, Akers, and Franciosi) (BCLO), 682

hepatic, in children, scintillation scanning in diagnosis of (O'Mara and McAfee), 211

Abstracts, Latin American Society for Pediatric Research, 715

Acanthocytosis and hypolipoproteinemia, Wolman's disease with: clinical and biochemical observations (Eto and Kitagawa), 862

Acid(s), amino, dibasic, new inhertied transport disorder of: congenital lysinuria (Oyanagi, Miura, and Yamanouchi), 259

boric, poisoning, epidemic, simulating staphylococcal toxic epidermal necrolysis of newborn infant: Ritter's disease (Rubenstein and Musher), 884

diethylamide, lysergic (LSD), and exstrophy of bladder (Gelehrter) (BCLO), 1065

folic, deficiency, secondary to diet for maple syrup urine disease (Levy et al.) (BCLO), 294

Acidemia, methylmalonic, prenatal detection of (Morrow et al.) (BCLO), 120

Acrocephalosyndactyly type III: Chotzen's syndrome (Bartsocas, Weber, and Crawford), 267

Adaptation, family, to child with cystic fibrosis (McCollum and Gibson), 571

Adrenal, gastric, and thyroid tissue, incidence of circulating antibodies against: diabetes mellitus (Goldstein et al.) (BCLO), 304

Adults and adolescents, cri du chat syndrome in: clinical finding in 13 older patients with partial deletion of short arm of chromosome No. 5 (5p–) (Breg et al.), 782

Adolescence, effect of, on serum growth hormone response to hypoglycemia (Frasier, Hilburn, and Smith) (BCLO), 465

suicidal intent in: hypothesis about role of physical illness (Weinberg), 579

Adolescents and adults, cri du chat syndrome in: clinical finding in 13 older patients with partial deletion of short arm of chromosome No. 5(5p–) (Breg et al.), 782

Adrenal abscess in neonate (Favara, Akers, and Franciosi) (BCLO), 682

Aerosol therapy, ultrasonic, in newborn infant, hyponatremia secondary to (Tamer, Modell, and Rieffel) (BCLO), 1051

Air transportation of high-risk infants utilizing flying intensive-care nursery (Shepard), 148

Alpha fetoprotein in embryonal hepatoblastoma (Alpert and Seeler) (BCLO), 1058

Alternate-day corticoid therapy in variety of illnesses in childhood: avoidance of dogma (Crawford, Gellis, and Senior) (Letter), 735

Amblyopia, detection of, in preschool child (Giles) (BCLO), 309

Amino acids, dibasic, new inherited tranport disorder of: congenital lysinuria (Oyanagi, Miura, and Yamanouchi), 259

Ampicillin treatment of listeriosis (Gordon, Barrett, and Yow), 1067

Anemia, aplastic, acute childhood leukemia presenting as: response to corticosteroids (Melhorn, Gross, and Newman), 647

refractory hypochromic, in malignant lymphoma (Maron and Shahidi), 93

Anomalies, genital, and facial dysplasia, familial syndrome of short stature associated with (Aarskog), 856

skeletal and genitourinary, absent patellae, mild mental retardation, and C group autosomal mosaicism (Riccardi, Atkins, and Holmes), 664

*July, 1-176; August, 177-354; September, 355-562; October, 563-748; November, 749-936; December, 937-1134.

XUM

Antibiotic, multiple–resistant strain of Salmonella indiana, protracted hospital-associated outbreak of salmonellosis due to (Adler et al.), 970
Antibodies, circulating, incidence of, against thyroid, gastric, and adrenal tissue: diabetes mellitus (Goldstein et al.) (BCLO), 304
Anticonvulsants and hemorrhagic diseases of newborn infant (Stevenson and Gilbert) (Letter), 516
Antimicrobial therapy (Friedman) (Letter), 917
Antipyretic therapy, oral and sponging, evaluation of to reduce fever (Steele et al.), 824
Aorta, coarctation of, and cerebrovascular accident: proposal for early corrective surgery (Shearer et al.), 1004
Aplastic anemia, acute childhood leukemia presenting as: response to corticosteroids (Melhorn, Gross, and Newman), 647
Arginine-induced growth hormone responses in children: effect of age and puberty (Sperling, Kenny, and Drash) (BCLO), 462
Arm, short, of chromosome No. 5(5p–), clinical finding in 13 older patients with partial deletion of: cri du chat syndrome in adolescents and adults (Breg et al.), 782
No. 4(4p–), partial deletion: clinical studies in five unrelated patients (Miller et al.), 792
Artery, systemic and pulmonary, dysplasia, associated with unexpected death in infancy (Strong et al.), 233
Arthritis, aspirin, and coma (Strauss and McAdams), 156
juvenile rheumatoid, hepatic involvement in (Schaller, Beckwith, and Wedgwood), 203
management of (Calabro), 355
serologic survey of 200 consecutive patients (Bluestone et al.), 98
Atresia, valvular, pulmonary, with intact ventricular septum: problems in diagnosis and results of treatment (Dhanavaravibul, Nora, and McNamara), 1010
Atrial stimulation, management of supraventricular tachycardia by (Hunsaker and Khoury) (BCLO), 454
Asparaginase, L-, for treatment of childhood acute leukemia, comparison of daily versus weekly (Pratt et al.), 474
Asphyxia, birth, hypermagnesemia from (Engel and Elin), 631
Aspirin, arthritis, and coma (Strauss and McAdams), 156
Asthma, cough syncope in children with (Katz), 48
Ataxia telangiectasia with granulocytopenia (Feigin et al.), 431
Attitudes toward care of fatally ill children (Newman and Gross) (Letter), 922; (Weiner) (Reply), 922
Auriculotemporal syndrome beginning in infancy (Balfour and Bloom) (BCLO), 872
Autoimmunity, thyroid, and deletion of chromosome group E (Ruvalcaba) (Letter), 343
Autopsies on newborn infants, analysis of 501: causes of neonatal mortality (Valdes-Dapnea and Arey), 366
Autosomal mosaicism, C group, absent patellae, mild mental retardation, and skeletal and genitourinary anomalies (Riccardi, Atkins, and Holmes), 664

B

Bacterial meningitis, influence of partial treatment with penicillin on diagnosis of (Winkelstein), 619
secondary and prolonged fevers in (Balagtas et al.), 957
Bartter's syndrome, effect of methyldopa on plasma renin activity in child with (Strauss et al.), 1071
Behavioral pediatrics, challenge in (Friedman) (Editor's column), 172
Bilirubin, photodegradation products of, effects on myelinating cerebellum cultures (Silberberg et al.), 613
serum, in newborn infants, failure of phototherapy to reduce (Patel, Pildes, and Behrman) (BCLO), 1044
toxicity of, in cerebellum tissue culture, factors influencing (Silberberg, Johnson, and Ritter), 386
Binary spleen: radioisotopic scan sign of splenic pseudocyst (Pearson, Touloukian, and Spencer), 216
Birth asphyxia, hypermagnesemia from (Engel and Elin), 631
weight, low, infants, growth of (Babson), 11
Bladder, dilatation of, progressive hydronephrosis, and hydroureter, in siblings with congenital nephrogenic diabetes insipidus (ten Bensel and Peters), 439
exstrophy of, lysergic acid diethylamide and (Gelehrter) (BCLO), 1065
Blanching subcutaneous nodules in neonatal neuroblastoma (Hawthorne et al) (BCLO), 297
Blistering and scaling dermatoses: neonatal dermatology (Esterly and Solomon), 1075
Blood gas tensions in neonates, effect of cooling on (Kattwinkel) (Letter), 921; (Oliver) (Reply), 922
hemoglobin, scalp, fetal, determination, value in Rh erythroblastosis fetalis (Hobel) (BCLO), 460
Book reviews
Aspects of developmental & paediatric ophthalmology (Duane), 341
Basic mechanisms of the epilepsies (Baird), 732
Diseases of the skin in children and adolescents. A color atlas (Koblenzer), 732
Foetus and placenta (Reynolds), 910

Book reviews—Cont'd
Neurology in pediatrics (Grover), 341
Paediatric endocrinology (New), 909
Pediatrics (Garfunkel), 909
Psychiatric examination of children (Wolf), 909
Psychiatry for the pediatrician (Garfunkel), 342
Recognizable patterns of human malformation (Wright), 733
Viral infections of the human fetus (Fulginiti), 733
Boric acid poisoning, epidemic, simulating staphylococcal toxic epidermal necrolysis of newborn infant: Ritter's disease (Rubenstein and Musher), 844
Breast-feeding, some thoughts and speculations on (Applebaum) (Letter), 517
pump, elevation of depressed skull fracture with (Schrager) (BCLO), 300
Buds, taste, unresponsiveness of methacholine despite presence of: absence of taste in type II familial dysautonomia (Wolfe and Henkin), 103

C

C group autosomal mosaicisms, absent patellae, mild mental retardation, and skeletal and genitourinary anomalies (Riccardi, Atkins, and Holmes), 664
Calcaneus, pseudotumor of, in Christmas disease (Krill and Mauer), 848
Calorie-protein, malnutrition, hypomagnesemia and magnesium therapy in (Rosen, Campbell, and Moosa), 709
Capacity, functional residual, in distressed neonates, measurement of by helium rebreathing (Krauss and Auld), 228
Cardiac catheterization, serum creatine phosphokinase levels in children undergoing (Wolfe, Ruttenberg, and Moss), 52
Carinii pneumonia, Pneumocystis, unusual complications of pentamidine in treatment of (Wang et al.), 311
Carotid, internal, congenital–internal jugular fistula (Lagos and Riley) (BCLO), 870
Catecholamine excretion in forty children with sympathoblastoma (Barontini de Gutiérrez Moyano, Bergadá, and Becú), 239
Catheterization, cardiac, serum creatine phosphokinase levels in children undergoing (Wolfe, Ruttenberg, and Moss), 52
Catheters, umbilical, in newborn infant, contamination of (Krauss, Albert, and Kannan), 965
Cell(s) culture and rare connective tissue disorders (Danes) (BCLO), 307
epithelial giant, in measles as aid in diagnosis (Lightwood and Nolan), 59
Gaucher, in leukemia (Rosner and Dosik) (Letter), 1101; (Witzleben) (Reply), 1101
Cell(s)—Cont'd
red, 2, 3-diphosphoglycerate, and tissue oxygen release (Oski and Delivoria-Papadopoulos), 941
Cellular and clinical studies of sarcosinemia (Scott et al.), 805
Cerebellum cultures, myelinating, effects of photodegradation products of bilirubin on (Silberberg et al.), 613
tissue culture, factors influencing toxicity of bilirubin in (Silberberg, Johnson, and Ritter), 386
Cerebrovascular accident, and coarctation of aorta: proposal for early corrective surgery (Shearer et al.), 1004
Cervical skin, posterior, extra: possible sign of chromosomal aberration in infancy (Shapiro, Hsu, and Hirschhorn) (BCLO), 690
Cervix, uterine: observations on cystic fibrosis of pancreas (Oppenheimer and Esterly), 991
Chloramphenicol and hetacillin in typhoid fever, comparative trial (Chawla et al.), 471
Chotzen's syndrome: acrocephalosyndactyly type III (Bartsocas, Weber, and Crawford), 267
Christmas disease, pseudotumor of calcaneus in (Krill and Mauer), 848
Chromosomal aberration in infancy, possible sign of: extra posterior cervical skin (Shapiro, Hsu, and Hirschhorn) (BCLO), 690
Chromosome aberrations in 50 patients with idiopathic mental retardation and in 50 control subjects (Daly), 444
group E, deletion of, and thyroid autoimmunity (Ruvalcaba) (Letter), 343
No. 5(5p–), clinical finding in 13 older patients with partial deletion of short arm of: cri du chat syndrome in adolescents and adults (Breg et al.), 782
No. 4(4p–), partial deletion of short arm: clinical studies in five unrelated patients (Miller et al.), 792
Clinical-Pathological Conferences, reinstatement of (Nelson), 176
Coagulation abnormalities in cyanotic heart disease (Brodsky) (Letter), 918; (Abildgaard) (Reply), 919; (Komp and Sparrow) (Reply), 920
Coarctation of aorta and cerebrovascular accident: proposal for early corrective surgery (Shearer et al.), 1004
Coccidioidomycosis in southern Texas, localized outbreak (Teel, Williams, and Yow), 65
Colistin, overdosage of (Rothner and Parker) (Letter), 515
Colonization, nosocomial, with kanamycin-resistant Klebsiella pneumoniae, types 2 and 11, in premature nursery (Adler et al.), 376

XUM

Coma, aspirin, and arthritis (Strauss and McAdams), 156
and convulsions, congenital heart disease with sudden onset of (Witzleben and Dodge), 900
diabetic, hyperosmolar, nonketotic, in Down's syndrome (Belmonte et al.) (BCLO), 879
Congenital cytomegalovirus infection in two siblings from consecutive pregnancies (Embil, Ozere, and Haldane), 417
heart disease, severe, survival of infants with (Hurwitz, Simmons, and Girod), 412
with sudden onset of convulsions and coma (Witzleben and Dodge), 900
hyperparathyroidism secondary to maternal hypoparathyroidism (Landing and Kamoshita), 842
internal carotid–internal jugular fistula (Lagos and Riley) (BCLO), 870
lysinuria: new inherited transport disorder of dibasic amino acids (Oyanagi, Miura, and Yamanouchi), 259
malformations and neonatal thrombocytopenia associated with administration of tolbutamide to mother (Schiff, Aranda, and Stern) (BCLO), 457
marrow dysfunction in Down's syndrome (Weinberger and Oleinick), 273
nephrogenic diabetes insipidus, progressive hydronephrosis, hydroureter, and dilatation of bladder in siblings with (ten Bensel and Peters), 439
nystagmus, spasmus nutans, and unclassified nystagmus of infancy, prospective study of: infantile nystagmus (Jayalakshmi et al.), 177
Conjunctival and retinal vascular changes in relation to diabetes: microcirculation in young adults with cystic fibrosis (Chazen et al.), 86
Conjunctivitis, inclusion, in newborn infant (Goscienski), 19
Contamination of umbilical catheters in newborn infant (Krauss, Albert, and Kannan), 965
Convulsions and coma, congenital heart disease with sudden onset of (Witzleben and Dodge), 900
Cooling on blood gas tensions in neonates, effect of (Kattwinkel) (Letter), 921; (Oliver) (Reply), 922
Cortical hyperostosis with hyperphosphatemia: new syndrome? (Melhem, Najjar, and Khachadurian), 986
Corticoid therapy, alternate-day, in variety of illnesses in childhood: avoidance of dogma (Crawford, Gellis, and Senior) (Letter), 735
Corticosteroids, response to: acute childhood leugemia presenting as aplastic anemia (Melhorn, Gross, and Newman), 647
Cough syncope in children with asthma (Katz), 48
Creases, hand, digital and palmar, genesis and significance of: preliminary report (Popich and Smith), 1017
Creatine phosphokinase, serum, levels in children undergoing cardiac catheterization (Wolfe, Ruttenberg, and Moss), 52
Cri du chat syndrome in adolescents and adults: clinical finding in 13 older patients with partial deletion of short arm of chromosome No. 5(5p–) (Breg et al.), 782
Culture(s), cell, and rare connective tissue disorders (Danes) (BCLO), 307
cerebellum, myelinating, effects of photodegradation products of bilirubin on (Silberberg et al.), 613
tissue, cerebellum, factors influencing toxicity of bilirubin in (Silberberg, Johnson, and Ritter), 386
fibroblasts, glycogen content of, from patients with cystic fibrosis and other heritable disorders, (Pallavicini et al.), 280
Cyanosis of newborn infant (Lees), 484
Cyanotic heart disease, coagulation abnormalities in (Brodsky) (Letter), 918; (Abildgaard) (Reply), 919; (Komp and Sparrow) (Reply), 920
quantitation of secondary fibrinolysis in (Komp and Sparrow) (BCLO), 679
Cystic fibrosis, family adaptation to child with (McCollum and Gibson), 571
and other heritable disorders, glycogen content of tissue culture fibroblasts from patients with (Pallavicini et al.), 280
microcirculation in young adults with: retinal and conjunctival vascular changes in relation to diabetes (Chazen et al.), 86
of pancreas, observations on: uterine cervix (Oppenheimer and Esterly), 991
patients, metabolism of sulfated mucopolysaccharide in cultured fibroblasts from (Weismann and Neufeld) (BCLO), 685
possibility of, in infants with vitamin K deficiency (Dolan and Gibson) (Letter), 515; (Nammacher) (Reply), 515
Cystinosis in utero, identification of heterozygous genotype for, by new pulse-labeling technique: preliminary report (Schulman et al.) (BCLO), 468
Cysts, epidermoid, of testis in children: report of four cases (Price and Mostofi) (BCLO), 676
Cytogenetic abnormalities, immune deficiency, and abnormal erythropoiesis, lymphosarcoma in siblings, associated with (Freeman, Sinks, and Cohen), 996
Cytomegalovirus infection, congenital, in two siblings from consecutive pregnancies (Embil, Ozere, and Haldane), 417
respiratory tract excretion of, in Thai children (Olson et al.), 499

XUM

D

Death, sudden, in infants syndrome, vitamin E and selenium deficiencies and their possible etiological role in (Money) (Letter), 165
unexpected, in infancy, systemic and pulmonary artery dysplasia associated with (Strong et al.), 233
Deficiency, folic acid, secondary to diet for maple syrup urine disease (Levy et al.) (BCLO), 294
IgA and IgE, combined, recurrent sinopulmonary infections, and mental retardation (Ammann, Roth, and Hong), 802
immune, cytogenetic abnormalities, and abnormal erythropoiesis, lymphosarcoma in siblings, associated with (Freeman, Sinks, and Cohen), 996
Dehydration, hyperosmolal, in nondiabetic infants, hyperglycemia with (Stevenson and Bowyer), 818
Dehydrogenase, glucose-6-phosphate, activity, normal or deficient, hemolytic process of viral hepatitis in children with (Kattamis and Tjortjatou), 422
Deletion of chromosome group E and thyroid autoimmunity (Ruvalcaba) (Letter), 343
G, syndromes (Warren and Rimoin), 658
partial, of short arm of chromosome No. 5 (5p–), clinical finding in 13 older patients with: cri du chat syndrome in adolescents and adults (Breg et al.), 782
No. 4(4–): clinical studies in five unrelated patients (Miller et al.), 792
Dermatoglyphic nomogram for diagnosis of Down's syndrome (Reed et al.), 1024
Dermatology, neonatal: blistering and scaling dermatoses (Esterly and Solomon), 1075
newborn skin (Solomon and Esterly), 888
Dermatoses, blistering and scaling: neonatal dermatology (Esterly and Solomon), 1075
Developmental screening test, responses of urban preschool children to (Sandler et al.), 775
Diabetes insipidus, nephrogenic, congenital progressive hydronephrosis, hydroureter, and dilatation of bladder in siblings with (ten Bensel and Peters), 439
mellitus: incidence of circulating antibodies against thyroid, gastric, and adrenal tissue (Goldstein et al.) (BCLO), 304
retinal and conjunctival vascular changes in relation to: microcirculation in young adults with cystic fibrosis (Chazen et al.), 86
Diabetic coma, hyperosmolar, nonketotic, in Down's syndrome (Belmont et al.) (BCLO), 879
Dialysis, renal, continuous, or renal homotransplantation for child with end-stage renal diseases, whether or not to recommend: doctor's dilemma (Reinhart), 505
Diarrhea, monosaccharide intolerance and hypoglycemia in infants with: clinical course of 23 infants (Lifshitz, Coello-Ramírez, and Gutiérrez-Topete), 595
Diastrophic dwarfism, rubella as possible cause of (Staub) (Letter), 1096
Dibasic amino acids, new inherited transport disorder of: congenital lysinuria (Oyanagi, Miura, and Yamanouchi), 259
Diet for maple syrup urine disease, folic acid deficiency secondary to (Levy et al.) (BCLO), 294
Diethylamide, acid, lysergic, and exstrophy of bladder (Gelehrter) (BCLO), 1065
Digital and palmar hand creases, genesis and significance of: preliminary report (Popich and Smith), 1017
Di Guglielmo's syndrome: acute myelogenous leukemia with compensatory but ineffective erythropoiesis (Schwartz, Zelson, and Pearson), 653
Dilatation of bladder, progressive hydronephrosis, and hydroureter, in siblings with congenital nephrogenic diabetes insipidus (ten Bensel and Peters), 439
Diphenylhydantoin, pseudolymphoma induced by (Gams) (Letter), 1100; (Scaglione) (Reply), 1100
Diphosphoglycerate, 2, 3-, red cell, and tissue oxygen release (Oski and Delivoria-Papadopoulos), 941
Disease, Christmas, pseudotumor of calcaneus in (Krill and Mauer), 848
congenital, heart, survival of infants with (Hurwitz, Simmons, and Girod), 412
heart, congenital, with sudden onset of convulsions and coma (Witzleben and Dodge), 900
cyanotic, coagulation abnormalities in (Brodsky) (Letter), 918; (Abildgaard) (Reply), 919; (Komp and Sparrow) (Reply), 920
quantitation of secondary fibrinolysis in (Komp and Sparrow) (BCLO), 679
hemorrhagic, of newborn infant, and anticonvulsants (Stevenson and Gilbert) (Letter), 516
maple syrup urine, folic acid deficiency secondary to diet for (Levy et al.) (BCLO), 294
membrane, hyaline, lung phospholipids of human fetuses and infants with and without (Adams et al.), 833
Morquio's, and mucopolysaccharide excretion (Linker, Evans, and Langer), 1039
renal, end-stage, whether or not to recommend continuous renal dialysis or renal homotransplantation for child with: doctor's dilemma (Reinharat), 505
Ritter's: epidemic boric acid poisoning simulating staphylococcal toxic epidermal necrolysis of newborn infant (Rubenstein and Musher), 884

XUM

Disease—Cont'd
Wolman's, with hypolipoproteinemia and acanthocytosis: clinical and biochemical observations (Eto and Kitagawa), 862
Disorders, rare connective tissue, and cell culture (Danes) (BCLO), 307
Doctor's dilemma: whether or not to recommend continuous renal dialysis or renal homotransplantation for child with end-stage renal disease (Reinhart), 505
Down's syndrome, congenital marrow dysfunction in (Weinberger and Oleinick), 273
dermatoglyphic nomogram for diagnosis of (Reed et al.), 1024
nonketotic hyperosmolar diabetic coma in (Belmonte et al.) (BCLO), 879
Drug-using adolescent as pediatric patient (Litt and Cohen), 195
Dwarfism, diastrophic, rubella as possible cause of (Staub) (Letter), 1096
and mental retardation: serum growth hormone response to hypoglycemia (Frasier, Hilburn, and Smith) (BCLO), 136
Dysautonomia, familial (Dancis and Smith) (Editor's column), 172
(Riley) (Letter), 1102
type II, absence of taste in: unresponsiveness to methacholine despite presence of taste buds (Wolfe and Henkin), 103
Dysfunction, congenital marrow, in Down's syndrome (Weinberger and Oleinick), 273
Dysplasia, facial, and genital anomalies, familial syndrome of short stature associated with (Aarskog), 856
systemic and pulmonary artery, associated with unexpected death in infancy (Strong et al.), 233

E

Electrical hazards in newborn nursery (Chernick and Raber), 143
Embryonal hepatoblastoma, alpha fetoprotein in (Alpert and Seeler) (BCLO), 1058
Encephalitis associated with erythema infectiosum (Balfour, Schiff, and Bloom) (BCLO), 133
Endocrine response, and sleep characteristics in progeria (Rosenbloom, Karacan, and DeBusk) (BCLO), 692
Endotracheal tube swallowed by neonate (Storch and Calderwood) (BCLO), 123
Enema, Gastrografin, nonoperative treatment of meconium ileus by (Wagget et al.), 407
Epidemic boric acid poisoning simulating staphylococcal toxic epidermal necrolysis of newborn infant: Ritter's disease (Rubenstein and Musher), 884
Epidermoid cysts of testis in children: report of four cases (Price and Mostofi) (BCLO), 676
Epithelial giant cells in measles as aid in diagnosis (Lightwood and Nolan), 59
Erythema infectiosum, encephalitis associated with (Balfour, Schiff, and Bloom) (BCLO), 133
Erythematosis, lupus, systemic, and ethosuccimide (Alter) (Letter), 1093; (Dabbous and Idriss) (Reply), 1094
Erythroblastosis fetalis, Rh, value of fetal scalp blood hemoglobin determination in (Hobel) (BCLO), 460
Erythropoiesis, abnormal, cytogenetic abnormalities, and immune deficiency, lymphosarcoma in siblings, associated with (Freeman, Sinks, and Cohen), 996
compensatory but ineffective, acute myelogenous leukemia with: Di Guglielmo's syndrome (Schwartz, Zelson, and Pearson), 653
Ethosuccimide, systemic lupus erythematosus and (Alter) (Letter), 1093; (Dabbous and Idriss) (Reply), 1094
Excretion, catecholamine, in forty children with sympathoblastoma (Barontini de Gutiérrez Moyano, Bergadá, and Becú), 239
mucopolysaccharide, Morquio's disease and (Linker, Evans, and Langer), 1039
respiratory tract, of cytomegalovirus in Thai children (Olson et al.), 499
Exocrine function, pancreatic, effect of refeeding, in marasmic infants (Danus V. et al.), 334
Exstrophy of bladder, lysergic acid diethylamide and (Gelehrter) (BCLO), 1065
Eyes, covering, during phototherapy (Shulman and Garcia) (Letter), 346

F

Facial dysplasia and genital anomalies, familial syndrome of short stature associated with (Aarskog), 856
Factor, lethal, children's ward as (Jelliffe and Jelliffe), 895
Familial dysautonomia (Dancis and Smith) (Editor's column), 172
(Riley) (Letter), 1102
type II, absence of taste in: unresponsiveness to methacholine despite presence of taste buds (Wolfe and Henkin), 103
hyperphosphatasia with mental retardation, seizures, and neurologic deficits (Mabry et al.), 74
nephropathy, diffuse: clinicopathological study (Kaufman et al.), 37
syndrome of short stature associated with facial dysplasia and genital anomalies (Aarskog), 856
Family adaptation to child with cystic fibrosis (McCollum and Gibson), 571
Fatally ill children, attitudes toward care of (Newman and Gross) (Letter), 922; (Wiener) (Reply), 922
Fetal scalp blood hemoglobin determination, value in Rh erythroblastosis fetalis (Hobel) (BCLO), 460

XUM

Fetalis, erythroblastosis, Rh, value of fetal scalp blood hemoglobin determination in (Hobel) (BCLO), 460
Fetoprotein, alpha, in embryonal hepatoblastoma (Alpert and Seeler) (BCLO), 1058
Fetus(es) and newborn infant, virus infections of (Overall and Glasgow), 315
human, and infants with and without hyaline membrane disease, lung phospholipids of (Adams et al.), 833
Fever(s), evaluation of sponging and of oral antipyretic therapy to reduce (Steele et al.), 824
and pediatrician (Smith) (Editor's column), 935
secondary and prolonged, in bacterial meningitis (Balagtas et al.), 957
Fibrinolysis, secondary, in cyanotic heart disease, quantitation of (Komp and Sparrow) (BCLO), 679
Fibroblasts, cultured, from cystic fibrosis patients, metabolism of sulfated mucopolysaccharide in (Wiesmann and Neufeld) (BCLO), 685
tissue culture, glycogen content of, from patients with cystic fibrosis and other heritable disorders (Pallavicini et al.), 280
Fibrosis, cystic, family adaptation to child with (McCollum and Gibson), 571
and other heritable disorders, glycogen content of tissue culture fibroblasts from patients with (Pallavicini et al.), 280
microcirculation in young adults with: retinal and conjunctival vascular changes in relation to diabetes (Chazen et al.), 86
of pancreas, observations on: uterine cervix (Oppenheimer and Esterly), 991
patients, metabolism of sulfated mucopolysaccharide in cultured fibroblasts from (Wiesmann and Neufeld) (BCLO), 685
possibility of, in infants with vitamin K deficiency (Dolan and Gibson) (Letter), 515; (Nammacher) (Reply), 515
Fisher, Miller, syndrome in 22-month-old child (Qaqundah and Taylor) (BCLO), 868
Fistula, jugular, internal–congenital internal carotid (Lagos and Riley) (BCLO), 870
Folic acid deficiency secondary to diet for maple syrup urine disease (Levy et al.) (BCLO), 294
Foot-uterus-hand syndrome (Stern et al.), 109
Fracture, depressed skull, elevation of, with breast pump (Schrager) (BCLO), 300
Frontodigital syndrome: dominantly inherited disorder with normal intelligence (Marshall and Smith) (BCLO), 129
Fucosidosis and mannosidosis (Brunngraber) (Letter), 166; (Durand) (Reply), 168; (Öckerman) (Reply), 168

G

G deletion syndromes (Warren and Rimoin), 658
Galactosuria, evaluation of (Hall et al.), 625
Gangliosidosis, GM_2, juvenile: partial deficiency of hexosaminidase A (Okada, Veath, and O'Brien) (BCLO), 1063
Gas, blood, tensions in neonates, effect of cooling on (Kattwinkel) (Letter), 921; (Oliver) (Reply), 922
Gastric and lactobezoar perforation in neonate (Levkoff et al.) (BCLO), 875
thyroid, and adrenal tissue, incidence of circulating antibodies against: diabetes mellitus (Goldstein et al.) (BCLO), 304
Gastrografin enema, nonoperative treatment of meconium ileus by (Wagget et al.), 407
Gaucher cells in leukemia (Rosner and Dosik) (Letter), 1101; (Witzleben) (Reply), 1101
Genital anomalies and facial dysplasia, familial syndrome of short stature associated with (Aarskog), 856
Genitourinary and skeletal anomalies, absent patellae, mild mental retardation, and C group autosomal mosaicism (Riccardi, Atkins, and Holmes), 664
Genotype, heterozygous, for cystinosis in utero, identification by new pulse-labeling technique: preliminary report (Schulman et al.) (BCLO), 468
Gestational age in newborn infant, clinical assessment of (Dubowitz, Dubowitz, and Goldberg), 1
Ghetto, New York, identification of group at risk in: obesity in children (Kahn), 771
Glucose-6-phosphate dehydrogenase activity, hemolytic process of viral hepatitis in children with normal or deficient (Kattamis and Tjortjatou), 422
Glucuronide-forming compounds in icteric and nonicteric newborn Gunn rats, comparative toxicity studies on (Yeary), 139
Glycogen content of tissue culture fibroblasts from patients with cystic fibrosis and other heritable disorders (Pallavicini et al.), 280
Glycol, propylene: potentially toxic vehicle in liquid dosage form (Martin and Finberg) (BCLO), 877
GM_2 gangliosidosis, juvenile: partial deficiency of hexosaminidase A (Okada, Veath, and O'Brien) (BCLO), 1063
Granulocytopenia, ataxia telangiectasia with (Feigin et al.), 431
Growth hormone, influence on pathogenesis of obesity in children (Carnelutti, del Guercio, and Chiumello), 285
responses, arginine-induced, in children: effect of age and puberty (Sperling, Kenny, and Drash) (BCLO), 462
serum, response to hypoglycemia: dwarfism and mental retardation (Frasier, Hilburn, and Smith) (BCLO), 136
effect of adolescence (Frasier, Hilburn, and Smith) (BCLO), 465
Gunn rats, newborn, comparative toxicity studies

XUM

Gunn rats—Cont'd
on glucuronide-forming compounds in (Yeary), 139

H

Hand creases, digital and palmar, genesis and significance of: preliminary report (Popich and Smith), 1017
-foot-uterus syndrome (Stern et al.), 109
Handicapped children, state-wide information center for (Feingold, Fain, and Gellis), 830
Heart disease, congenital, severe, survival of infants with (Hurwitz, Simmons, and Girod), 412
with sudden onset of convulsions and coma (Witzleben and Dodge), 900
cyanotic, coagulation abnormalities in (Brodsky) (Letter), 918; (Abildgaard) (Reply), 919; (Komp and Sparrow) (Reply), 920
quantitation of secondary fibrinolysis in (Komp and Sparrow) (BCLO), 679
Helium rebreathing, measurement of functional residual capacity in distressed neonates by (Krauss and Auld), 228
Hematoma, subdural, spinal, in leukemic child (Wolcott, Grunnet, and Lahey) (BCLO), 1060
Hemoglobin, blood, scalp, fetal, determination, value in Rh erythroblastosis fetalis (Hobel) (BCLO), 460
S, new diagnostic test for (Schorr) (Letter), 736; (Heller and Yakulis) (Reply), 736
Hemolytic process of viral hepatitis in children with normal or deficient glucose-6-phosphate dehydrogenase activity (Kattamis and Tjortjatou), 422
Hemorrhagic diseases of newborn infant, and anticonvulsants (Stevenson and Gilbert) (Letter), 516
Hepatic abscess in children, scintillation scanning in diagnosis of (O'Mara and McAfee), 211
involvement in juvenile rheumatoid arthritis (Schaller, Beckwith, and Wedgwood), 203
Hepatitis, viral, in children with normal or deficient glucose-6-phosphate dehydrogenase activity, hemolytic process of (Kattamis and Tjortjatou), 422
Hepatoblastoma, embryonal, alpha fetoprotein in (Alpert and Seeler) (BCLO), 1058
Hereditary tyrosinemia and abnormal pyrrole metabolism (Kang and Gerald), 397
Hetacillin and chloramphenicol in typhoid fever, comparative trial (Chawla et al.), 471
Heterozygous genotype for cystinosis in utero, identification by new pulse-labeling technique: preliminary report (Schulman et al.) (BCLO), 468
Hexosaminidase A, partial deficiency of: juvenile GM_2 gangliosidosis (Okada, Veath, and O'Brien) (BCLO), 1059
Homotransplantation, or continuous renal dialysis, for child with end-stage renal disease, whether or not to recommend: doctor's dilemma (Reinhart), 505
Hormone, growth, influence on pathogenesis of obesity in children (Carnelutti, del Guercio, and Chiumello), 285
responses, arginine-induced, in children: effect of age and puberty (Sperling, Kenny, and Drash) (BCLO), 462
serum, response to hypoglycemia, effect of adolescence (Frasier, Hilburn, and Smith) (BCLO), 465
dwarfism and mental retardation (Frasier, Hilburn, and Smith) (BCLO), 136
Hospital-associated outbreak, protracted, of salmonellosis due to multiple-antibiotic–resistant strain of Salmonella indiana (Adler et al.), 970
Hyaline membrane disease, lung phospholipids of human fetuses and infants with and without (Adams et al.), 833
Hydronephrosis, progressive, hydroureter, and dilatation of bladder in siblings with congenital nephrogenic diabetes insipidus (ten Bensel and Peters), 439
Hydroureter, progressive hydronephrosis, and dilatation of bladder in siblings with congenital nephrogenic diabetes insipidus (ten Bensel and Peters), 439
Hyperbilirubinemia, neonatal, effects of phototherapy on (Kopelman) (Letter), 344; (Porto) (Reply), 345
Hyperglycemia with hyperosmolar dehydration in nondiabetic infants (Stevenson and Bowyer), 818
Hyperglycinemia, nonketotic (Okken, de Groot, and Hommes) (Letter), 164
Hypermagnesemia from birth asphyxia (Engel and Elin), 631
Hyperosmolal dehydration in nondiabetic infants, hyperglycemia with (Stevenson and Bowyer), 818
Hyperosmolar diabetic coma, nonketotic, in Down's syndrome (Belmonte et al.) (BCLO), 879
Hyperostosis, cortical, with hyperphosphatemia: new syndrome? (Melhem, Najjar, and Khachadurian), 986
Hyperparathyroidism, congenital, secondary to maternal hypoparathyroidism (Landing and Kamoshita), 842
Hyperphosphatasia, familial, with mental retardation, seizures, and neurologic deficits (Mabry et al.), 74
Hyperphosphatemia, cortical hyperostosis with: new syndrome (Melhem, Najjar, and Khachadurian), 986
Hypochromic anemia, refractory, in malignant lymphoma (Maron and Shahidi), 93
Hypoglycemia, effect of adolescence on serum growth hormone response to (Frasier, Hilburn, and Smith) (BCLO), 465

and monosaccharide intolerance in infants with diarrhea: clinical course of 23 infants (Lifshitz, Coello-Ramírez, and Gutiérrez-Topete), 595
in neonatal sepsis (Yeung), 812
serum growth hormone response to: dwarfism and mental retardation (Frasier, Hilburn, and Smith) (BCLO), 136
Hypolipoproteinemia and acanthocytosis, Wolman's disease with: clinical and biochemical observations (Eto and Kitagawa), 862
Hypomagnesemia and magnesium therapy in protein-calorie malnutrition (Rosen, Campbell, and Moosa), 709
Hyponatremia secondary to ultrasonic aerosol therapy in newborn infant (Tamer, Modell, and Rieffel) (BCLO), 1051
Hypoparathyroidism, maternal, congenital hyperparathyroidism secondary to (Landing and Kamoshita), 842

I

Icteric and nonicteric newborn Gunn rats, comparative toxicity studies on glucuronide-forming compounds in (Yeary), 139
Idiopathic mental retardation, chromosome aberrations in 50 patients with, and in 50 control subjects (Daly), 444
segmental infarction, primary, of greater omentum (Wengert and Azizkhan) (BCLO), 459
IgA and IgE deficiency, combined, recurrent sinopulmonary infections, and mental retardation (Ammann, Roth, and Hong), 802
IgE and IgA deficiency, combined, recurrent sinopulmonary infections, and mental retardation (Ammann, Roth, and Hong), 802
IgM determination in neonate and infants for diagnosis of infection (Kagan, Staincova, and Felix) (Letter), 916
Ileus, meconium, nonoperative treatment of, by Gastrografin enema (Wagget et al.), 407
Illness(es), physical hypothesis about role of: suicidal intent in adolescence (Weinberg), 579
variety of, in childhood, alternate-day corticoid therapy in: avoidance of dogma (Crawford, Gellis, and Senior (Letter), 735
Immune deficiency, cytogenetic abnormalities, and abnormal erythropoiesis, lymphosarcoma in siblings, associated with (Freeman, Sinks, and Cohen), 996
Inclusion conjunctivitis in newborn infant (Goscienski), 19
Indiana, Salmonella, protracted hospital-associated outbreak of salmonellosis due to multiple-antibiotic–resistant strain of (Adler et al.), 970
Indigenous nonprofessional, training: screening technician (Frankenburg et al.), 564
Infarction, segmental, idiopathic, primary, of greater omentum (Wengert and Azizkahn) (BCLO), 459
Infection(s), diagnosis of, IgM determination in neonate and infants for (Kagan, Staincova, and Felix) (Letter), 916
sinopulmonary, recurrent, mental retardation, and combined IgA and IgE deficiency (Ammann, Roth, and Hong), 802
skin, streptococcal, further studies on treatment (Derrick and Dillon), 696
virus, of fetus and newborn infant (Overall and Glasgow), 315
maternal, after first trimester of pregnancy and status of offspring to 4 years of age in predominantly Negro population (Korones et al.), 245
Infectiosum, erythema, encephalitis associated with (Balfour, Schiff, and Bloom) (BCLO), 133
Insipidus, diabetes, nephrogenic, congenital, progressive hydronephrosis, hydroureter, and dilatation of bladder in siblings with (ten Bensel and Peters), 439
Intelligence loss, and intelligence quotients in pa- with phenylketonuria and some variant states (Berman and Ford), 764
quotients and intelligence loss in patients with phenylketonuria and some variant states (Berman and Ford), 764
Intolerance, monosaccharide, and hypoglycemia in infants with diarrhea: clinical course of 23 infants (Lifshitz, Coello-Ramírez, and Gutiérrez-Topete, 595
Iron deficiency and koilonychia in infants, relationship of (Hogan and Jones) (BCLO), 1050
Iron poisoning, acute: assessment of severity and prognosis (James) (BCLO), 117
Isovolumetric exchange transfusion technique, continuous (Cropp) (BCLO), 881

J

Jaundice, neonatal, phenobarbital for (Ackerman (Letter), 916
Jugular fistula, internal–congenital internal carotid (Lagos and Riley) (BCLO), 870

K

K, vitamin, deficiency, possibility of cystic fibrosis in infants with (Dolan and Gibson) (Letter), 515; (Nammacher) (Reply), 515
Kanamycin-resistant Klebsiella pneumoniae, types 2 and 11, nosocomial colonization with, in premature nursery (Adler et. al.), 376
Kidneys, polycystic, and seizures in infant, tuberous sclerosis presenting as (Wenzl, Lagos, and Albers) (BCLO), 673

Klebsiella pneumoniae, kanamycin-resistant, types 2 and 11, nosocomial colonization with, in premature nursery (Adler et al.), 376
Koilonychia and iron deficiency in infants, relationship of (Hogan and Jones) (BCLO), 1054

L

L-Asparaginase for treatment of childhood acute leukemia, comparison of daily versus weekly (Pratt et al.), 474
Lactobezoar and gastric perforation in neonate (Levkoff et al.) (BCLO), 875
Lethal factor, children's ward as (Jelliffe and Jelliffe), 895
Leukemia, acute, childhood, comparison of daily versus weekly L-asparaginase for treatment of (Pratt et al.), 474
presenting as aplastic anemia: response to corticosteroids (Melhorn, Gross, and Newman), 647
during remission, therapy of (Parker) (Letter), 918
lymphocytic, acute, childhood, treatment of (Pinkel), 1089
myelogenous acute, with compensatory but ineffective erythropoiesis: Di Guglielmo's syndrome (Schwartz, Zelson, and Pearson), 653
relapse after prolonged remission (Gross and Newman) (Letter), 1091; (Feldman) (Reply), 1096
Liquid dosage form, potentially toxic vehicle in: propylene glycol (Martin and Finberg (BCLO), 877
Listeriosis, ampicillin treatment of (Gordon, Barrett, and Yow), 1067
Lowe's syndrome, ornithine loading test in (Matsuda, Sugai, and Kajii) (BCLO), 127
Lumbar tapper's dilemma (Wheeler) (Editor's column), 747
Lung phospholipids of human fetuses and infants with and without hyaline membrane disease (Adams et al.), 833
Lupus erythematosus, systemic, and ethosuccimide (Alter) (Letter), 1093; (Dabbous and Idriss) (Reply), 1094
Lymphocytic leukemia, acute, childhood, treatment of (Pinkel), 1089
thyroiditis, chronic, thyroid scintiscans in children and adolescents with (Hung and LoPresti) (BCLO), 302
Lymphoma, malignant, refractory hypochromic anemia in (Maron and Shahidi), 93
Lymphosarcoma in siblings, associated with cytogenetic abnormalities, immune deficiency, and abnormal erythropoiesis (Freeman, Sinks, and Cohen), 996
Lysergic acid diethylamide (LSD) and exstrophy of bladder (Gelehrter) (BCLO), 1065
Lysinuria, congenital: new inherited transport disorder of dibasic amino acids (Oyanagi, Miura, and Yamanouchi), 259

M

Magnesium therapy and hypomagnesemia in protein-calorie malnutrition (Rosen, Campbell, and Moosa), 709
Malformations, congenital, and neonatal thrombocytopenia, associated with administration of tolbutamide to mother (Schiff, Aranda, and Stern) (BCLO), 457
Malignant lymphoma, refractory hypochromic anemia in (Maron and Shahidi), 93
Malnutrition, protein-calorie, hypomagnesemia and magnesium therapy in (Rosen, Campbell, and Moosa), 709
Mannosidosis and fucosidosis (Brunngraber) (Letter), 166; (Durand) (Reply), 168; (Öckerman) (Reply), 168
Maple syrup urine disease, folic acid deficiency secondary to diet for (Levy et al.) (BCLO), 294
Marasmic infants, effect of refeeding on pancreatic exocrine function in (Danus V. et al.), 334
Marrow dysfunction, congenital, in Down's syndrome (Weinberger and Oleinick), 273
Maternal attachment, patterns and determinants of (Robson and Moss), 976
hypoparathyroidism, congenital hyperparathyroidism secondary to (Landing and Kamoshita), 842
thiazides and platelet counts of neonates (Leiken) (Letter), 1097; (Merenstein, Plunket, and O'Loughlin) (Reply), 1097
virus infection after first trimester of pregnancy and status of offspring to 4 years of age in predominantly Negro population (Korones et al.), 245
Measles, epithelial giant cells in, as aid in diagnosis (Lightwood and Nolan), 59
Meatal stenosis, meatotomy in girls with (Askin) (Letter), 343; (Forbes, Drummond, and Nogrady), 343
Meatotomy in girls with meatal stenosis (Askin) (Letter), 343; (Forbes, Drummond, and Nogrady) (Reply), 343
Meconium ileus, nonoperative treatment of, by Gastrografin enema (Wagget et al.), 407
Medical care, and physician productivity (Drachman and Cooke), 749
Medication for pediatric patients, prescribing: pediatrician and his patient (Angella) (Letter), 1092
Mellitus, diabetes: incidence of circulating antibodies against thyroid, gastric, and adrenal tissue (Goldstein et al.) (BCLO), 304
Membrane, hyaline, disease, lung phospholipids of human fetuses and infants with and without (Adams et al.), 833
Meningitis, bacterial, influence of partial treatment with penicillin on diagnosis of (Winkelstein), 619
secondary and prolonged fevers in (Balagtas et al.), 957

Meningococcemia, treatment of (Komp) (Letter), 344
Mental retardation and dwarfism: serum growth hormone response to hypoglycemia (Frasier, Hilburn, and Smith) (BCLO), 136
idiopathic, chromosome aberrations in 50 patients with, and in 50 control subjects (Daly), 444
mild, absent patellae, skeletal and genitourinary anomalies, and C group autosomal mosaicism (Riccardi, Atkins, and Holmes), 664
recurrent sinopulmonary infections, and combined IgA and IgE deficiency (Ammann, Roth, and Hong), 802
seizures, and neurologic deficits, familial hyperphosphatasia with (Mabry et al.), 74
Metabolic studies in 23 infants: monosaccharide intolerance and hypoglycemia in infants with diarrhea (Lifshitz, Coello-Ramírez, and Gutiérrez-Topete), 604
Metabolism, pyrrole, abnormal, and hereditary tyrosinemia (Kang and Gerald), 397
of sulfated mucopolysaccharide in cultured fibroblasts from cystic fibrosis patients (Wiesmann and Neufeld) (BCLO), 685
Methacholine, unresponsiveness to, despite presence of taste buds: absence of taste in type II familial dysautonomia (Wolfe and Henkin), 103
Methyldopa, effect on plasma renin activity in child with Bartter's syndrome (Strauss et al.), 1071
Methylmalonic acidemia, prenatal detection of (Morrow et al.) (BCLO), 120
Microcirculation in young adults with cystic fibrosis: retinal and conjunctival vascular changes in relation to diabetes (Chazen et al.), 86
Miller Fisher syndrome in 22-month-old child (Qaqundah and Taylor) (BCLO), 868
Monosaccharide intolerance and hypoglycemia in infants with diarrhea: clinical course of 23 infants (Lifshitz, Coello-Ramírez, and Gutiérrez-Topete), 595
metabolic studies in 23 infants (Lifshitz, Coello-Ramírez, and Gutiérrez-Topete), 604
Morphology and renal function in girl with oculocerebrorenal syndrome (Sagel, Ores, and Yuceoglu) (BCLO), 124
Morquio's disease and mucopolysaccharide excretion (Linker, Evans, and Langer), 1039
Mortality, neonatal, causes: analysis of 501 autopsies on newborn infants (Valdes-Dapnea and Arey), 366
Mosaicism, autosomal, C group, absent patellae, mild mental retardation, and skeletal and genitourinary anomalies (Riccardi, Atkins, and Holmes), 664
Mucopolysaccharide excretion, Morquio's disease and (Linker, Evans, and Langer), 1039
sulfated, in cultured fibroblasts from cystic fibrosis patients, metabolism of (Wiesmann and Neufeld) (BCLO), 685
Mucopolysaccharidosis, new (Horton and Schimke), 252
Myelinating cerebellum cultures, effects of photodegradation products of bilirubin on (Silberberg et al.), 613
Myelogenous leukemia, acute, with compensatory but ineffective erythropoiesis: Di Guglielmo's syndrome (Schwartz, Zelson, and Pearson), 653

N

Negro population, maternal virus infection after first trimester of pregnancy and status of offspring to 4 years of age in (Korones et al.), 245
Nephrogenic diabetes insipidus, congenital, progressive hydronephrosis, hydroureter, and dilatation of bladder in siblings with (ten Bensel and Peters), 439
Nephropathy, diffuse familial: clinicopathological study (Kaufman et al.), 37
Neuroblastoma, neontal, blanching subcutaneous nodules in (Hawthorne et al.) (BCLO), 297
Neurofibromatosis in childhood (Haicken) (Letter), 923
Neurologic deficits, mental retardation, and seizures, familial hyperphosphatasia with (Mabry et al.), 74
New York ghetto, identification of group at risk in: obesity in children (Kahn), 771
Nodules, subcutaneous, blanching, in neonatal neuroblastoma (Hawthorne et al.) (BCLO), 297
Nomogram, dermatoglyphic, for diagnosis of Down's syndrome (Reed et al.), 1024
Nondiabetic infants, hyperglycemia with hyperosmolal dehydration in (Stevenson and Bowyer), 818
Nonketotic hyperglycinemia (Okken, de Groot, and Hommes) (Letter), 164
hyperosmolar diabetic coma in Down's syndrome (Belmonte et al.) (BCLO), 879
Nosocomial colonization with kanamycin-resistant Klebsiella pneumoniae, types 2 and 11, in premature nursery (Adler et al.), 376
Nursery, flying intensive-care, air transportation of high-risk infants utilizing (Shepard), 148
newborn, electrical hazards in (Chernick and Raber), 143
Nutans, spasmus, congenital nystagmus, and unclassified nystagmus of infancy, prospective study of: infantile nystagmus (Jayalakshmi et al.), 177

XUM

Nystagmus, infantile: prospective study of spasmus nutans, congenital nystagmus, and unclassified nystagmus of infancy (Jayalakshmi et al.), 177

O

Obesity in children: identification of group at risk in New York ghetto (Kahn), 771
influence of growth hormone on pathogenesis of (Carnelutti, del Guercio, and Chiumello), 285
Oculocerebrorenal syndrome, renal function and morphology in girl with (Sagel, Ores, and Yuceoglu) (BCLO), 124
Omentum, greater, primary idiopathic segmental infarction of (Wengert and Azizkhan) (BCLO), 459
Opisthotonus, thiamine deficiency presenting as (Sullivan) (Letter), 1092
Oral antipyretic therapy and sponging, evaluation of to reduce fever (Steele et al.), 824
Overdosage of colistin (Rothner and Parker) (Letter), 515
Ornithine loading test in Lowe's syndrome (Matsuda, Sugai, and Kajii) (BCLO), 127
Oxygen release, tissue, red cell, and 2, 3-diphosphoglycerate (Oski and Delivoria-Papadopoulos), 941

P

Pancreas, observations on cystic fibrosis of: uterine cervix (Oppenheimer and Esterly), 991
Pancreatic exocrine function, effect of refeeding, in marasmic infants (Danus V. et al.), 334
Palmar and digital hand creases, genesis and significance of: preliminary report (Popich and Smith), 1017
Parent, irate, management of (Schulman), 338
Park, Edwards A. (Taussig), 722
Patellae, absent, mild mental retardation, skeletal and genitourinary anomalies, and C group autosomal mosaicism (Riccardi, Atkins, and Holmes), 664
Patient, pediatric, drug-using adolescent as (Litt and Cohen), 195
pediatrician and his: prescribing medication for pediatric patients (Angella) (Letter), 1088
Pediatrics, contemporary, a "modern" specialty? (Doxiadis), 150
Penicillin, influence of partial treatment with, on diagnosis of bacterial meningitis (Winkelstein), 619
Pentamidine, unusual complications of, in treatment of Pneumocystis carinii pneumonia (Wang et al.), 311
Perforation, lactobezoar and gastric, in neonate (Levkoff et al.) (BCLO), 875
Phenobarbital for neonatal jaundice (Ackerman) (Letter), 916
Phenylketonuria and some variant states, intelligence quotients and intelligence loss in patients with (Berman and Ford), 764
Phosphate, glucose-6, dehydrogenase activity, normal or deficient, hemolytic process of viral hepatitis in children with (Kattamis and Tjortjatou), 422
Phosphokinase, serum creatine, levels in children undergoing cardiac catheterization (Wolfe, Ruttenberg, and Moss), 52
Phospholipids, lung, of human fetuses and infants with and without hyaline membrane disease (Adams et al.), 833
Photodegradation products of bilirubin, effects on myelinating cerebellum cultures (Silberberg et al.), 613
Phototherapy and skin color, relationship (Ente) (Letter), 1094: (Porto, Pildes, and Goodman) (Reply), 1099
covering eyes during (Shulman and Garcia) (Letter), 346
effects on neonatal hyperbilirubinemia (Kopelman and Odell) (Letter), 344; (Porto) (Reply), 345
failure of, to reduce serum bilirubin in newborn infants (Patel, Pildes, and Behrman) (BCLO), 1048
retinal changes produced by (Sisson et al.), 221
Physician productivity and medical care (Drachman and Cooke), 749
Plasma renin activity in child with Bartter's syndrome, effect of methyldopa on (Strauss et al.), 1071
Platelet counts of neonates, maternal thiazides and (Leiken) (Letter), 1097; (Merenstein, Plunket, and O'Loughlin) (Reply), 1097
Pneumocystis carinii pneumonia, unusual complications of pentamidine in treatment of (Wang et al.), 311
Pneumonia, Pneumocystis carinii, unusual complications of pentamidine in treatment of (Wang et al.), 311
Pneumoniae, Klebsiella, kanamycin-resistant, types 2 and 11, nosocomial colonization with, in premature nursery (Adler et al.), 376
Polycystic kidneys and seizures in infant, tuberous sclerosis presenting as (Wenzl, Lagos, and Albers) (BCLO), 673
Poisoning, acid, boric, epidemic, simulating staphylococcal toxic epidermal necrolysis of newborn infant: Ritter's disease (Rubenstein and Musher), 884
iron, acute: assessment of severity and prognosis (James) (BCLO), 117
Posterior cervical skin, extra: possible sign of chromosomal aberration in infancy (Shapiro, Hsu, and Hirschhorn) (BCLO), 690
Pregnancies, consecutive, congenital cytomegalovirus infection in two siblings from (Embil, Ozere, and Haldane), 417

Pregnancy, maternal virus infection after first trimester of, and status of offspring to 4 years of age in predominantly Negro population (Korones et al.), 245
Prenatal detection of methylmalonic acidemia (Morrow et al.) (BCLO), 120
Preschool children, urban, responses to developmental screening test (Sandler et al.), 775
Progeria, sleep characteristics and endocrine response in (Rosenbloom, Karacan, and DeBusk) (BCLO), 692
Propylene glycol: potentially toxic vehicle in liquid dosage form (Martin and Finberg) (BCLO), 877
Protein-calorie malnutrition, hypomagnesemia and magnesium therapy in (Rosen, Campbell, and Moosa), 709
Pseudolymphoma induced by diphenylhydantoin (Gams) (Letter), 1100; (Scaglione) (Reply), 1100
Pseudotumor of calcaneus in Christmas disease (Krill and Mauer), 848
Puberty and age, effect of: arginine-induced growth hormone responses in children (Sperling, Kenny, and Drash) (BCLO), 462
Pulmonary and systemic artery dysplasia associated with unexpected death in infancy (Strong et al.), 233
valvular atresia with intact ventricular septum: problems in diagnosis and results of treatment (Dhanavaravibul, Nora, and McNamara), 1010
Pulse-labeling technique, new, identification of heterozygous genotype for cystinosis in utero by: preliminary report (Schulman et al.) (BCLO), 468
Pump, breast, elevation of depressed skull fracture with (Schrager) (BCLO), 300
Pycnodysostosis: case report of child with associated trisomy X (Lacey, Eyring, and Shaffer), 1033
Pyrrole metabolism, abnormal, and hereditary tyrosinemia (Kang and Gerald), 397

Q

Quotients, intelligence, and intelligence loss in patients with phenylketonuria and some variant states (Berman and Ford), 764

R

Radioisotopic scan sign of splenic pseudocyst: binary spleen (Pearson, Touloukian, and Spencer), 216
Rebreathing, helium, measurement of functional residual capacity in distressed neonates by (Krauss and Auld), 228
Refeeding, effect of, on pancreatic exocrine function in marasmic infants (Danus V. et al.), 334
Refractory hypochromic anemia in malignant lymphoma (Maron and Shahidi), 93
Relapse of leukemia after prolonged remission (Gross and Newman) (Letter), 1095; (Feldman) (Reply), 1096
Remission, prolonged, relapse of leukemia after (Gross and Newman) (Letter), 1095; (Feldman) (Reply), 1096
therapy of leukemia during (Parker) (Letter), 918
Renal dialysis, continuous, or renal homotransplantation for child with end-state renal disease, whether or not to recommend: doctor's dilemma (Reinhart), 505
function and morphology in girl with oculocerebrorenal syndrome (Sagel, Ores, and Yuceoglu) (BCLO), 124
Renin activity, plasma, in child with Bartter's syndrome, effect of methyldopa on (Strauss et al.), 1071
Residencies and fellowships, 521
Residual capacity, functional, in distressed neonates, measurement of by helium rebreathing (Krauss and Auld), 228
Respiratory failure in full-term infant (Esterly and Stein) (Editor's column), 508
tract excretion of cytomegalovirus in Thai children (Olson et al.), 499
Retardation, mental, and dwarfism: serum growth hormone response to hypoglycemia (Frasier, Hilburn, and Smith) (BCLO), 136
idiopathic, chromosome aberrations in 50 patients with, and in 50 control subjects (Daly), 444
mild, absent patellae, skeletal and genitourinary anomalies, and C group autosomal mosaicism (Riccardi, Atkins, and Holmes), 664
recurrent sinopulmonary infections, and combined IgA and IgE deficiency (Ammann, Roth, and Hong), 802
seizures, and neurologic deficits, familial hyperphosphatasia with (Mabry et al.), 74
Retinal changes produced by phototherapy (Sisson et al.), 221
and conjunctival vascular changes in relation to diabetes: microcirculation in young adults with cystic fibrosis (Chazen et al.), 86
Reye's syndrome in twins (Thaler et al.), 638
Rh erythroblastosis fetalis, value of fetal scalp blood hemoglobin determination in (Hobel) (BCLO), 460
Rheumatoid arthritis, juvenile, hepatic involvement in (Schaller, Beckwith, and Wedgwood), 203
management of (Calabro), 355
serologic survey of 200 consecutive patients (Bluestone et al.), 98
Ritter's disease: epidemic boric acid poisoning simulating staphylococcal toxic epidermal necrolysis of newborn infant (Rubenstein and Musher), 884
Rubella as possible cause of diastrophic dwarfism (Staub) (Letter), 1096

XUM

S

S, hemoglobin, new diagnostic test for (Schorr) (Letter), 736; (Heller and Yakulis) (Reply), 736
Salmonella indiana, protracted hospital-associated outbreak of salmonellosis due to multiple-antibiotic–resistant strain of (Adler et al.), 970
Salmonellosis, protracted hospital-associated outbreak of, due to multiple-antibiotic–resistant strain of Salmonella indiana (Adler et al.), 970
Sarcosinemia, clinical and cellular studies of (Scott et al.), 805
Scaling and blistering dermatoses: neonatal dermatology (Esterly and Solomon), 1075
Scalp, fetal, blood hemoglobin determination, value in Rh erythroblastosis fetalis (Hobel) (BCLO), 460
Scan sign, radioisotopic, of splenic pseudocyst: binary spleen (Pearson, Touloukian, and Spencer), 216
Scanning, scintillation, in diagnosis of hepatic abscess in children (O'Mara and McAfee), 211
  limitations of (Charkes) (Editor's column), 350
Scintillation scanning in diagnosis of hepatic abscess in children (O'Mara and McAfee), 211
  limitations of (Charkes) (Editor's column), 350
Scintiscans, thyroid, in children and adolescents with chronic lymphocytic thyroiditis (Hung and LoPresti) (BCLO), 302
Sclerosis, tuberous, presenting as polycystic kidneys and seizures in infant (Wenzl, Lagos, and Albers) (BCLO), 673
  white spots in (Hurwitz and Braverman), 587
Screening technician: training indigenous nonprofessional (Frankenburg et al.), 564
  test, developmental, responses of urban preschool children to (Sandler et al.), 775
Segmental infarction, idiopathic, primary, of greater omentum (Wengert and Azizkhan) (BCLO), 459
Seizures, mental retardation, and neurologic deficits, familial hyperphosphatasia with (Mabry et al.), 74
  neonatal—diagnosis and management (Freeman), 701
  and polycystic kidneys in infant, tuberous sclerosis presenting as (Wenzl, Lagos, and Albers) (BCLO), 673
Selenium and vitamin E deficiencies and their possible etiological role in sudden death in infants syndrome (Money) (Letter), 165
Sepsis, neonatal, hypoglycemia in (Yeung), 812
Septum, ventricular, intact, pulmonary valvular atresia with: problems in diagnosis and results of treatment (Dhanavaravibul, Nora, and McNamara), 1010
Serologic survey of 200 consecutive patients: juvenile rheumatoid arthritis (Bluestone et al.), 98
Serum bilirubin in newborn infants, failure of phototherapy to reduce (Patel, Pildes, and Behrman) (BCLO), 1048
  creatine phosphokinase levels in children undergoing cardiac catheterization (Wolfe, Ruttenberg, and Moss), 52
  growth hormone response to hypoglycemia: dwarfism and mental retardation (Frasier, Hilburn, and Smith) (BCLO), 136
    effects of adolescence (Frasier, Hilburn, and Smith) (BCLO), 465
Siblings with congenital nephrogenic diabetes insipidus, progressive hydronephrosis, hydroureter, and dilatation of bladder in (ten Bensel and Peters), 439
  lymphosarcoma in, associated with cytogenetic abnormalities, immune deficiency, and abnormal erythropoiesis (Freeman, Sinks, and Cohen), 996
  two, from consecutive pregnancies, congenital cytomegalovirus infection in (Embil, Ozere, and Haldane), 417
Sinopulmonary infections, recurrent, mental retardation, and combined IgA and IgE deficiency (Ammann, Roth, and Hong), 802
Skeletal and genitourinary anomalies, absent patellae, mild mental retardation, and C group autosomal mosaicism (Riccardi, Atkins, and Holmes), 664
Skin, cervical, posterior, extra: possible sign of chromosomal aberration in infancy (Shapiro, Hsu, and Hirschhorn) (BCLO), 690
  color and phototherapy, relationship (Ente) (Letter), 1098; (Porto, Pildes, and Goodman) (Reply), 1099
  infection, streptococcal, further studies on treatment (Derrick and Dillon), 696
  newborn: neonatal dermatology (Solomon and Esterly), 888
Skull fracture, depressed, elevation of, with breast pump (Schrager) (BCLO), 300
Sleep characteristics and endocrine response in progeria (Rosenbloom, Karacan, and DeBusk) (BCLO), 692
Spasmus nutans, congenital nystagmus, and unclassified nystagmus of infancy, prospective study of: infantile nystagmus (Jayalakshmi et al.), 177
Spinal subdural hematoma in leukemic child (Wolcott, Grunnet, and Lahey) (BCLO), 1060
Spleen, binary: radioisotopic scan sign of splenic pseudocyst (Pearson, Touloukian, and Spencer), 216
Sponging, evaluation of, and of oral antipyretic therapy to reduce fever (Steele et al.), 824

XUM

State-wide information center for handicapped children (Feingold, Fain, and Gellis), 830
Stature, short, associated with facial dysplasia and genital anomalies, familial syndrome (Aarskog), 856
Stenosis, meatal, meatotomy in girls with (Askin) (Letter), 343; (Forbes, Drummond, and Nogrady) (Reply), 343
Stimulation, atrial, management of supraventricular tachycardia by (Hunsaker and Khoury) (BCLO), 454
Streptococcal skin infection, further studies on treatment (Derrick and Dillon), 696
Subdural hematoma, spinal, in leukemic child (Wolcott, Grunnet, and Lahey) (BCLO), 1060
Subcutaneous nodules, blanching, in neonatal neuroblastoma (Hawthorne et al.) (BCLO), 297
Suicidal intent in adolescence: hypothesis about role of physical illness (Weinberg), 579
Sulfated mucopolysaccharide in cultured fibroblasts from cystic fibrosis patients, metabolism of (Wiesmann and Neufeld) (BCLO), 685
Supraventricular tachycardia, management of, by atrial stimulation (Hunsaker and Khoury) (BCLO), 454
Surgery, corrective, early, proposal for: coarctation of aorta and cerebrovascular accident (Shearer et al.), 1004
Survey on reader interest and informational needs, results (Nelson) (Editor's column), 929
Sympathoblastoma, catecholamine excretion in forty children with (Barontitni de Gutiérrez Moyano, Bergadá, and Becú), 239
Syncope, cough, in children with asthma (Katz), 48
Syndrome, auriculotemporal, beginning in infancy (Balfour and Bloom) (BCLO), 872
  Bartter's, effect of methyldopa on plasma renin activity in child with (Strauss et al.), 1071
  Chotzen's: acrocephalosyndactyly type III (Bartsocas, Weber, and Crawford), 267
  cri du chat, in adolescents and adults: clinical finding in 13 older patients with partial deletion of short arm of chromosome No. 5 (5p–) (Breg et al.), 782
  Di Guglielmo's: acute myelogenous leukemia with compensatory but ineffective erythropoiesis (Schwartz, Zelson, and Pearson), 653
  Down's, congenital marrow dysfunction in (Weinberger and Oleinick), 273
    dermatoglyphic nomogram for diagnosis of (Reed et al.), 1024
    nonketotic hyperosmolar diabetic coma in (Belmonte et al.) (BCLO), 879
Down's—Cont'd
  familial, of short stature associated with facial dysplasia and genital anomalies (Aarskog), 856
  frontodigital: dominantly inherited disorder with normal intelligence (Marshall and Smith) (BCLO), 129
  G deletion (Warren and Rimoin), 658
  Lowe's, ornithine loading test in (Matsuda, Sugai, and Kajii) (BCLO), 127
  Miller Fisher, in 22-month-old child (Qaqundah and Taylor) (BCLO), 868
  new: cortical hyperostosis with hyperphosphatemia (Melhem, Najjar, and Khachadurian), 986
  oculocerebrorenal, renal function and morphology in girl with (Sagel, Ores, and Yuceoglu) (BCLO), 124
  Reye's, in twins (Thaler et al.), 638
  sudden death in infants, vitamin E and selenium deficiencies and their possible etiological role in (Money) (Letter), 165
  Wilson-Mikity, physiologic studies on infants with (Krauss et al.), 27
Syrup, maple, urine disease, folic acid deficiency secondary to diet for (Levy et al.) (BCLO), 294
Systemic and pulmonary artery dysplasia associated with unexpected death in infancy (Strong et al.), 233
  lupus erythematosus and ethosuccimide (Alter) (Letter), 1093; (Dabbous and Idriss) (Reply), 1094

T

Tachycardia, supraventricular, management of, by atrial stimulation (Hunsaker and Khoury) (BCLO), 454
Taste, absence of, in type II familial dysautonomia: unresponsiveness to methacholine despite presence of taste buds (Wolfe and Henkin), 103
Technician, screening: training indigenous nonprofessional (Frankenburg et al.), 564
Telangiectasia, ataxia, with granulocytopenia (Feigin et al.), 431
Temperament, infant, simplified method for measuring (Carey), 188
Tensions, blood gas, in neonates, effect of cooling on (Kattwinkel) (Letter), 921; (Oliver) (Reply), 922
Test, diagnostic, new, for hemoglobin S (Schorr) (Letter), 736; (Heller and Yakulis) (Reply), 736
  ornithine loading, in Lowe's syndrome (Matsuda, Sugai, and Kajii) (BCLO), 127
  screening, developmental, responses of urban preschool children (Sandler et al.), 775
Testis, epidermoid cysts of, in children: report of four cases (Price and Mostofi) (BCLO), 676
Tetracyclines, more on (Shelley) (Letter), 917

XUM

Texas, southern, localized outbreak of coccidioidomycosis in (Teel, Williams, and Yow), 65
Thai children, respiratory tract excretion of cytomegalovirus in (Olson et al.), 499
Therapy, aerosol, ultrasonic, in newborn infant, hyponatremia secondary to (Tamer, Modell, and Rieffel) (BCLO), 1051
antimicrobial (Friedman) (Letter), 917
antipyretic, oral, and sponging, evaluation of to reduce fever (Steele et al.), 824
corticoid, alternate-day, in variety of illnesses in childhood: avoidance of dogma (Crawford, Gellis, and Senior) (Letter), 735
of leukemia during remission (Parker) (Letter), 918
magnesium, and hypomagnesemia in protein-calorie malnutrition (Rosen, Campbell, and Moosa), 709
Thiamine deficiency presenting as opisthotonus (Sullivan) (Letter), 1092
Thiazides, maternal, and platelet counts of neonates (Leiken) (Letter), 1097; (Merenstein, Plunket, and O'Loughlin) (Reply), 1097
Thrombocytopenia, neonatal, and congenital malformations associated with administration of tolbutamide to mother (Schiff, Aranda, and Stern) (BCLO), 457
Thyroid autoimmunity, and deletion of chromosome group E (Ruvalcaba) (Letter), 343
gastric, and adrenal tissue, incidence of circulating antibodies against: diabetes mellitus (Goldstein et al.) (BCLO), 304
scintiscans in children and adolescents with chronic lymphocytic thyroiditis (Hung and LoPresti) (BCLO), 302
Thyroiditis, chronic lymphocytic, thyroid scintiscans in children and adolescents with (Hung and LoPresti) (BCLO), 302
Tissue, adrenal, gastric, and thyroid, incidence of circulating antibodies against: diabetes mellitus (Goldstein et al.) (BCLO), 304
culture, cerebellum, factors influencing toxicity of bilirubin in (Silberberg, Johnson, and Ritter), 386
fibroblasts, glycogen content of, from patients with cystic fibrosis and other heritable disorders (Pallavicini et al.), 280
oxygen release, red cell, and 2, 3-diphosphoglycerate (Oski and Delivoria-Papadopoulos), 941
rare connective, disorders, and cell culture (Danes) (BCLO), 307
Tolbutamide, administration to mother, neonatal thrombocytopenia and congenital malformations associated with (Schiff, Aranda, and Stern) (BCLO), 457
Toxic vehicle, potentially, in liquid dosage form: propylene glycol (Martin and Finberg) (BCLO), 877
Toxicity of bilirubin in cerebellum tissue culture, factors influencing (Silberberg, Johnson, and Ritter), 386
studies, comparative, on glucuronide-forming compounds in icteric and nonicteric newborn Gunn rats (Yeary), 139
Training indigenous nonprofessional: screening technician (Frankenburg et al.), 564
Transfusion, continuous isovolumetric exchange, technique (Cropp) (BCLO), 881
Transport disorder, new inherited, of dibasic amino acids: congenital lysinuria (Oyanagi, Miura, and Yamanouchi), 259
Transportation, air, of high-risk infants utilizing flying intensive-care nursery (Shepard), 148
Treatment, nonoperative, of meconium ileus by Gastrografin enema (Wagget et al.), 407
partial, with penicillin on diagnosis of bacterial meningitis, influence of (Winkelstein), 619
Trisomy X, case report of child with associated: pycnodysostosis (Lacey, Eyring, and Shaffer), 1033
Tuberous sclerosis presenting as polycystic kidneys and seizures in infant (Wenzl, Lagos, and Albers) (BCLO), 673
white spots in (Hurwitz and Braverman), 587
Twins, Reye's syndrome in (Thaler et al.), 638
Typhoid fever, comparative trial of hetacillin and chloramphenicol in (Chawla et al.), 471
Tyrosinemia, hereditary, and abnormal pyrrole metabolism (Kang and Gerald), 397

U

Ultrasonic aerosol therapy in newborn infant, hyponatremia secondary to (Tamer, Modell, and Rieffel) (BCLO), 1051
Umbilical catheters in newborn infant, contamination of (Krauss, Albert, and Kannan), 965
Urban preschool children, responses to developmental screening test (Sandler et al.), 775
Urine disease, maple syrup, folic acid deficiency secondary to diet for (Levy et al.) (BCLO), 294
Uterine cervix: observations on cystic fibrosis of pancreas (Oppenheimer and Esterly), 991
Uterus-foot-hand syndrome (Stern et al.), 109

V

Valvular atresia, pulmonary, with intact ventricular septum: problems in diagnosis and results of treatment (Dhanavaravibul, Nora, and McNamara), 1010
Vascular changes, retinal and conjunctival, in relation to diabetes: microcirculation in young adults with cystic fibrosis (Chazen et al.), 86

XUM

Veeder, Borden S. (Nelson), 563
Ventricular septum, intact, pulmonary valvular atresia with: problems in diagnosis and results of treatment (Dhanavaravibul, Nora, and McNamara), 1010
Viral hepatitis in children with normal or deficient glucose-6-phosphate dehydrogenase activity, hemolytic process of (Kattamis and Tjortjatou), 422
Virus infections of fetus and newborn infant (Overall and Glasgow), 315
maternal, after first trimester of pregnancy and status of offspring to 4 years of age in predominantly Negro population (Korones et al.), 245
Vitamin E and selenium deficiencies and their possible etiological role in sudden death in infants syndrome (Money) (Letter), 165
Vitamin—Cont'd
K deficiency, possibility of cystic fibrosis in infants with (Dolan and Gibson) (Letter), 515; (Nammacher) (Reply), 515

W

Ward, children's as lethal factor (Jelliffe and Jelliffe), 895
Wilson-Mikity syndrome, physiologic studies on infants with (Krauss et al.), 27
Wolman's disease with hypolipoproteinemia and acanthocytosis: clinical and biochemical observations (Eto and Kitagawa), 862

X

X, trisomy, associated, case report of child with: pycnodysostosis (Lacey, Eyring, and Shaffer), 1033

XUM
